A Commitment to QUALITY

Saturday, March 8th, 2014 · 1:00 MST

Video's Will be posted Monday, March 4th, 2014 · www.yardleycattle.com

Dear Friends, Fellow Cattlemen, and Valued Customers:

WELCOME to our 41st Annual Bull Sale. Greetings from the beautiful mountains of Southern Utah. We look forward to seeing you at the sale and hearing from you. We have something for everyone in this sale and our quality is as good as you will find anyplace in America. Our cattle have worked for thousands of other people and they will work for you. Last fall we had buyers form 19 states and Canada. Many of them flew out here and others bought over the internet

OUR BULLS ARE BRED WITH THE COMMERCIAL CATTLEMAN IN MIND! They are backed by many generations of highly productive cow families that have STOOD THE TEST OF TIME. Our objective is the production of cattle that have a lasting economic significance and make a profit for our customers. THESE ARE NOT ORDINARY CATTLE. IF YOU WANT THE BEST, WE HAVE THEM IN VOLUME.

We strive to produce cattle that are moderate framed, deep bodied, thick, easy fleshing, heavy muscled and maintain maternal strength. We breed for performance for our customers who sell cattle by the pound, with structural correctness, and eye appealing good looks and uniformity to top the market. These traits can best be analyzed by visual appraisal from the eyes of a stockman and assessed along with performance data. The right kind of profitable cattle never go out of style. THE BIG FEEDERS RECOGNIZE OUR CATTLE HAVE SUPERIOR GENETICS THAT MAKE THEM GAIN BETTER AND LOOK BETTER AND THEY PAY A PREMIUM FOR CALVES SIRED OUT OF OUR BULLS.

It is the mother cow that is the most important part of any operation. We expect these cows to stay fat and maintain their body weight while raising a 700 lb calf without creep. The true value of a beef cow is her ability to convert grass and forage to protein. NO MACHINE CAN BEGIN TO COMPETE IN EFFICIENCY OR THE COST OF OPERATION WITH A GRAZING COW. Our cows are run off forage year round. Easy fleshing is a function of body type and not about an EPD or any other number.

This is a family operation and I am very grateful for the love, help and interest of my wonderful wife and family. A good family is the greatest blessing that anyone can have in life and we believe strongly that families are eternal and forever with God in Heaven. Family traditions are part of the weave of ranch life in the West and farm life in the East, fostering the passage of knowledge, honesty, integrity and hard work between the generations who take part in this unique and wonderful way of life.

We are very blessed to live in America and have FREEDOM. I hope that all of you appreciate the great blessings of living in this great country. The standard of living we have enjoyed is the greatest the world has ever seen. Our country and our Freedom are being threatened as never before…we pray every day that our country and way of life will survive.

We appreciate your confidence in our program and cattle. Your friendship means more to us than anything else. We look forward to seeing you sale day. GOD BLESS YOU AND GOD BLESS AMERICA.

Sincerely yours for a better cattle business,

The GIB YARDLEY FAMILY,
P.O. Box 288 Beaver, Utah 84713
Home: (435) 438-2424 Cell: (435) 310-0041

Semen Interest: We are retaining a 1/3 semen revenue sharing semen interest in all bulls selling. The new owners of the bulls will have full possession and all salvage value. There will never be more than 2 or 3 bulls a year we will do this on. We will have them collected for in herd use at your convenience and our expense.

SALE AND RANCH STAFF

Herd Records: Michelle Smith, Minersville, UT
Sales Clerk: Tawnya Yardley Teichert, Mandan, ND
Ranch Staff: Josue Garcia, Jose Guzeman, Steven Yardley, Emily Yardley
Angela Yardley, Clay Avila
Veterinarians: Dr. Evan Yardley, Beaver, UT. Dr. Mont Myers, Nephi, UT
Brand Inspector: Thayne Marshall
Pay Clerk: Michelle Smith, Lori Hoffman, Emily Yardley
AI Technician: Zane Yardley
Barbeque: Darren Oberg Family and Dave Wilding Family

TRANSPORTATION

Beaver is 200 miles away from Salt Lake City or Las Vegas, NV, on I-15. From Salt Lake, Sky West Airline commuter (Delta Airlines) serves Cedar City, which is 50 miles south of Beaver and also St George which is 100 miles south. Many times tickets are cheaper through these venues. Beaver has many excellent motels and restuarants, and an airstrip for private planes. You must call us to meet your plane as there is no taxi service.

TRUCKING & DELIVERY

Please leave detailed information with the sales clerk about your trucking needs and arrangements. We will work with you to help find the best and most efficient means for hauling. We will guarantee to have your animals delivered anywhere within the United States for no more than $300/head.

ACCOMMODATIONS:

Request the Yardley Cattle Company special room rate. Please try to reserve rooms as far in advance as possible to guarantee room rate.

Comfort Inn.....435-438-6283
South Interchange $60
Quality Inn 435-438-5426
South Interchange $55
Days Inn 435-438-7800
North Interchange $49
Butch Cassidy Inn.....435-438-2438
Downtown limited trailer parking $55

RANCH AND SALE LOCATION

Once you arrive in Beaver, go to the Post Office corner on Main and Center Streets in town. Take Milford Highway 21, go west on Center 1 & 1/2 miles to the Yardley Black Cow/Calf sign, turn right and proceed north and west across the field to our sale barn. You will pass our house 1/4 mile north of the highway, but continue one more mile to the barn.

UPON Leaving Hwy 21, traveling north on the gravel road, except for our house and lot, the horses, cattle and land do not belong to us until you cross the cattle guard just below our sale barn.

BARBECUE DINNER

We will begin to serve a complimentary barbecue dinner at 11:00 in the sale barn. Please join us!

Sale Information

TERMS & CONDITIONS

TERMS: Terms of this sale are cash, or a good check, unless arrangements are made prior to the sale. Settlement to be made immediately at the conclusion of the sale before animals are loaded. The right of property title shall not pass until checks have cleared.

BIDDING: All animals will sell as single lots to the highest bidder. Any disputes or challenges regarding bids will be settled by the auctioneer whose decision will be final.
RISK: All animals are at the owner's risk prior to their sale and become the property of the buyer as soon as the animal is declared sold by the auctioneer at which time the buyer assumes all risk.

HEALTH: Every bull in this sale, to the best of our knowledge, is free of any disease and will be eligible for interstate transport. All bulls were Dextomax treated. They have been vaccinated twice for IBR, P13, BVD, BRSV, 8-way Blackleg, One Shot Pasturella, plus Enforce. Poured for lice.

ANNOUNCEMENTS: Announcements from the auction block will take precedence over any printed matter, and any other announcements.

TRUCKING: All trucking is the responsibility of the buyer, but we will help make arrangements. Every effort will be made to minimize costs to the buyer.

GUARANTEE: Every bull has been tested for Tric and semen evaluated by a licensed veterinarian. We will guarantee the bulls selling in this sale to be fertile at the time of sale. Several of the bulls in this sale are of "Herd Sire" quality. If the buyer chooses to have semen collected on a bull, Yardley Cattle Company can not guarantee that the semen will freeze. KEEPING BULLS TILL MAY 15TH: We can do this but encourage you to insure them as the risk is the responsibility of the buyer. $3.50 per head per day will be charged until the bulls are picked up.

LIABILITIES: Although accidents at livestock sales seldom occur, everyone attending this sale does so at their own risk. The owners and employees of Yardley Cattle Company assume no liability, legal or otherwise, in the event of an accident, bodily injury, theft, act of God, errors in catalogs or ommissions, or percentage verification. We try to keep the most accurate records possible and have bull tight fences, but on a rare occasion, accidents of breeding occur that we are not aware of or cannot control. We will do everything we can to determine the correct parentage, but cannot guarantee it.

REGISTRATIONS: REGISTRATION PAPERS WILL ONLY BE FURNISHED IF REQUESTED AT THE TIME OF SETTLEMENT AT THE CONCLUSION OF THE SALE OR WITHIN 3 WEEKS. If requested later, buyer must pay additional registration fees. Leave the name and address to which you would like your bulls transferred on your sale slip when you settle up. Please print so that it is legible.

CONTRACT: The above Terms and Conditions of this sale shall constitute a contract between buyer and seller and be equally binding on both. Animals that are resold following the sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by these Terms and Conditions.

ABSENTEE BIDDING

If you are unable to attend the sale but would like to bid on the lots offered we encourage you to call prior to sale day. There are two ways to participate in the bidding if you are unable to attend the sale. Bids will be handled with the strictest of confidentiality.

1-Work with one of us to fill your order...

Due to the size of the offering it is impossible to picture every bull. There are many quality bulls that may not be highlighted that will fit your program. Feel free to call anytime prior to the sale. Sale days are crazy!! It is much easier for yourselves and for us if you are able to visit with us prior to the sale about certain lots. Gib: 435-310-0041, Jeannie: 435-421-1200, Steven: 435-310-1725

2-Bidding via DVAuctions….

Bid via www.DVAuction.com. For more information contact Kate @ 402-649-8048 or Roxanne @ 402-649-7946

3-Sale Day Phones. These phones are only for bidding and we HIGHLY RECOMMEND PRIOR ARRANGEMENTS AS THE LINES MAY BE BUSY AND YOU MAY NOT BE ABLE TO GET THROUGH. If prior arrangements have been made we will accommodate you to the best of our ability.

Jeannie.....(435) 421-1200
Emily.....(435) 310-0038
John Griswold.....(405) 780-3300

PRE-SALE REGISTRATION FOR ATTENDING BIDDERS AND ABSENTEE BIDDERS.

If you would like to register as an absentee bidder please call 435-421-1200. You may be required to list your bank telephone number and your drivers license number. All absentee buyers must be pre-registered. Any lots purchased by new absentee bidders must be paid for in full via wire-transfer on March 10th, 2014 prior to load-out or delivery. We appreciate you cooperation.

Before you can be approved you will need to provide a letter of reference from your lending institute. It must include the lenders letterhead, phone, address, contact person at the institution and a monetary range that can be used for purchases.

THESE BULLS WILL SELL IN EVERYONES PRICE RANGE.

We cull bulls from branding up until the sale for structural soundness, quality, breeding soundness, and temperament. Not every bull is destined to sire calves. AS SEEDSTOCK PRODUCERS WE TAKE THE RESPONSIBLITY TO MARKET QUALITY BULLS SERIOUS. We realize that your success depends upon our breeding program and we strive to have quality from the first lot sold to the last bull to walk through the sale ring.

ULTRASOUND EXPLANATION

PROCEDURE: Body composition measurements are taken with an Aloka 500 real-time ultrasound machine connected to a transducer that has been designed specifically for animal use. Scan measurements for fat thickness and ribeye area are taken at the 12-13th ribs. The scans are stored and returned to the ISU Animal Science Department for processing.

ADJUSTMENTS: Ribeye area and marbling are adjusted to 365 days using a linear per day of age adjustment. The external fat measurement is not age adjusted.

RIBEYE AREA: Ribeye area is measured in square inches. Ribeye area is positively and highly correlated with retail product. The heritability of this trait is moderately high, meaning that the trait will be passed on to the progeny. According to the NCA National Beef Quality Audit 1991, ribeye of 11 to 14 square inches are most appropriate for cutting 1-inch thick steaks weighing 8 to 10 ounces.

FAT THICKNESS: Fat thickness is measured in inches. Fat thickness is good indicator of percent retail products. The higher the fat thickness, the lower the percent retail product. Fat thickness is slightly lower in heritability than ribeye area.

MARBLING: Marbling is measured as percent fat. Heritability for marbling is in the moderate range. Beef carcasses are traded on the amount of intramuscular fat (marbling) they contain at the 12-13th ribs. However, marbling is a very subjective score. Real-time ultrasound has the capability to predict the actual percent fat in the ribeye muscle which is what the USDA grader is primarily trying to visually evaluate. Several research studies have indicated that the genetic correlation between marbling and fat thickness are very low, meaning that producers can select for increased marbling and not have to be concerned about having animals put on additional external fat.

FIRST YEAR BREEDING GUARANTEE

All bulls selling for $2500 or more will be covered 50% by ***Yardley Cattle Co.*** if they are injured during their first breeding season. Breeding season is defined as the 90-day period following the first turnout of the bulls.

50% of the value of the injured bull, minus one-half salvage value, will be given as credit in a future sale or toward a replacement bull if one is available. Salvage value, if any, will be split equally between ***Yardley Cattle Co.*** and the buyer. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by October 1st. We will not replace a dead animal for any reason.

PLEASE BRAND YOUR CATTLE WHEN YOU GET HOME!

BALANCE We have always concentrated on producing a functional, balanced, all purpose beef animal. One that is thick and moderate framed, not too big or too small, and that has a natural fleshing ability. If a cow has feed, I expect her to stay fat while raising a 700 lb. calf. We believe in a balance between performance, eye appeal, and maternal traits. Above all, we have eliminated the problem cattle.

To achieve balance, ranchers need cattle that are not necessarily the tops in all traits, but they can't be weak in one single trait.

Our bulls are not pampered and are not overly fat. They are developed on high roughage rations for comparison only and not for maximum gain. You will not be paying for over fleshing that will melt away as the breeding season progresses. By not force feeding these bulls, you can be assured they will be sound, athletic, and ready to service cows. They are grown in big lots where they get lots of exercise, so they can take the toughest ranges. These bulls are grown mostly on hay with a 50/50 alfalfa grass mix with less than 1% of their body weight in grain.

Simmental OFFERING 2014

LEADING YOU ON THE PATH TO SUCCESS

The beef industry has accepted Simmental as the "continental breed of choice" and has once again remembered that there is only one FREE GIFT that the Lord above has given to the industry and that gift is heterosis or "hybrid vigor." Each year we strive to raise the bar and produce a set of bulls that exceeds our previous offering. As you take the time to walk through the bull pens, you'll visualize a consistent quality set of bulls in all three breeds. Dad's favorite saying is "A GOOD BULL MUST HAVE A GOOD MOTHER." Our cattle have endured continuous selection pressure and uncompromising standards. These high volume, functional females have natural fleshing ability, are deep ribbed and thick. We run like any top commercial outfit with a forage grazing program year round. Yardley females winter on desert winter range without any hay, calve unassisted, breed back quickly, summer in the mountains and wean a 700# calf without creep. Our main focus is producing cattle that make our customers profitable. THE SIMMENTAL BREED IS ON FIRE AND GROWING MORE POPULAR EVERY DAY!

WE HAVE NO CLUB CALF BREEDING IN OUR CATTLE.

Yardley Commitment

Miss Yardley U212
WSS McCallister
Miss Yardley R203 by Yardley Stockman

Yardley Commitment is the best High Regard son we have had to date and arguably the best calf on the ranch. He is massive hipped, deep bodied, and big topped; sound as a cat with huge bone and hoof. He has style to burn and long straight perfect hair in a smooth, sleek package. His numbers are equally impressive with an 84# BW and 715# WW and a 1298# YW. He promises to sire purple ribbon and plaque winners with performance and growth to work in every facet of the industry. Commitment is a bull that will compliment any bull battery or AI stud. High Regard is getting more popular everyday. One heifer just sold for $75,000 and another has won every major show in the Nation this year.

Overhaul has been a standout baldy since birth. He has continued to be a favorite as he has matured and developed. At weaning he pushed down the scales at 841# and had a 1312# YW. He has all of the parts and pieces to be a great one. With substance and power to make pounds and profit in the fall, the style and look of a standout herd sire, Overhaul continues the tradition of excellence his cow family has produced. His maternal brothers sold for $8,500 and $8,250. His dam is one of our favorite Pressure Point daughters, moderate made and exceptionally stylish her calves have averaged 750#. His grand dam in turn had an 807# WW and averaged 720# on eight head of calves. Improve your herd with an Overhaul.

Ms Yardley U270 by New Level x Bouncer

Moving Forward represents the power, performance style and substance that we have come to know and appreciate in Long Haul's offspring. Long Haul's dam was the pick of our heifer calves. He was Intermediate Grand Champion bull in Denver in 2012 and is as pretty of made bull as we have had on the ranch. Moving Forward has a great spread of 81# BW to 721# WW. With a huge hip, deep body, width throughout and great neck extension Moving Forward will make showy stylish cattle that have the look and performance to help move your herd forward. His granddam was the pick of all heifer calves in 2008 byTrennapohl Farms and Mike Rist.

- WSJ Encore
- Miss Yardley T182 by Power House

Steel Force stands among the most popular and demanded sires in Simmental history siring several other top AI sires such as Chopper, Optimus Prime, Combustible, Driver, and Broker to name a few. Two of our own herd sires Hard as Steel and Nickels and Dimes are sired by him as well. His semen this year averaged $225/straw in Griswold's sale. His heifers have an equally impressive track record, several selling for over $40,000. The bottom line is that he works and works well. Driving Force is a prime example of this with impressive depth, length, muscle dimension and neck extension. His dam is an equally impressive female. Her maternal brother sold for $6,000 as lot 9 in our '10 sale.

Young Guns exhibits the masculine, athletic build and movement that have made Billy the Kid's offspring so popular. His 659# WW & 1257# YW is impressive, his pedigree is equally so tracing back to G41 one of our greatest donor cows and impressive females to date. With a soft, balanced look and a baldy face to boot, Young Gun will leave a mark of moderate, exceptionally broody replacement females that will excel on forage based ranges, and consistently bring home heavy calves in the Fall.

BW: 1.4 WW: 54.7 YW: 81.0 MK: 14.1

Young Guns

Regardless hails from one of our great cow families. His dam U450 is an embryo calf out of A144, one of our greatest herd matriarchs and donor cows. We thought enough of her to keep three sons as herd sires. U450 in turn produced Yardley Sweet Dreams the sale-topping show heifer that commanded an impressive $14,000 to Randy Jones of Ohio. A416 has the same look and design as his maternal sister with an added dose of power and masculinity. Sired by the ever popular Yardley High Regard, Regardless promises to make heifers that will top sales, win shows, and go on to make awesome replacements and donor cows.

A393 brings together two of the most elite individuals ever produced at Yardley Cattle Company. His sire, Yardley Utah was our high selling bull in 2012. His dam, is as pretty of a cow as we own and has been one of our most prolific and profitable producers. A393 is a maternal brother to Yardley Showdown who commanded an impressive $18,500 in '12 selling to Griswold's. She has averaged 720# WW on six calves. A393 represents the phenotypic quality of length, depth, width and dimension of a true breed changer combined with our best genetics.

Miss Yardley X200

STF Shocking Dream by CNS Dream On
Miss Fancy Yardley T85
OCC Rising Sun
Miss Yardley R76 by Swoosh x Overtime

Clay Avila has got as good of eye and memory for cattle as anyone who has ever worked for us, A234 was his favorite calf in the pen, and it's understandable why. Although he's young, he has incredible performance and power with the show stopping look and eye appeal to turn heads and catch attention. His numbers are equally impressive with a 792# WW and a 1,273# YW. We have loved Long Haul's offspring as they are deep, wide, and structurally correct with all the right parts in all the right places.

Angus offering 2014

The Angus Association has done a tremendous job at marketing their product and creating a demand for quality beef. The base to create a crossbreeding system around the Angus breed is second to none with a great deal of advantages. We receive many sale catalogs from programs across the Nation as I am sure many of you do. As one studies the literature the force towards single trait selection is an area for concern. Carcass data has increased in leaps and bounds throughout the last five years, yet as cattlemen it is important that we realize that data is a tool. When selection is made off paper alone and visual analysis is left out of the equation a dead end road is not far off. We spend a great deal of time traveling around the Country each year, mainly to look at cattle. There are great programs across the Country, each with different selection criteria's and goals. I've witnessed both ends of the spectrum in the Angus breed. There are cattle that look great on paper yet when you step out in the corral they lack natural thickness, depth and bone that is needed to withstand the rigors of breeding cows in a range like environment. As seed stock producers we strive to select individuals that will work in our customers programs. "We have really worked to try and keep the natural thickness, square tops, depth, good bone & legs, and natural fleshing ability in our Angus herd with performance needed to help you as cattlemen make money. Some of our Angus have outgained our Simmentals. These are not ordinary Angus. You won't find better Angus than these anyplace in America" –Gib Yardley

SCC Apache Brave	OCC Legend
	Y Annie Coed by Equity of PAR
Miss Yardley N171	RAF Xplorer by Krugerrand 490
	Miss Yardley J26 by Krugerrand 490

A505 is one of the most stylish Angus bull in the pen. Apache's legacy continues on long after his death with his calving-ease sale toppers. An embryo calf, A505 got off to a rough start in drought stricken southern Idaho, and has not reflected his true genetic potential since then. His dam N171 is as pretty of a donor cow as we have owned, and has raised heifers that are herd favorites. With his long square hip, perfect front, smooth shoulder, and depth and width throughout A505 is balanced and correct from every angle with flex and free movement.

Draft Pick — ZTA Nor Tex General by Midas
ZTA Blk Ruby
Miss Yardley S58 — BK Intense Plus by Halls Legacy Plus
Miss Yardley N99 by Cunia

S58 is one of our favorite Maine cows and out of an own daughter of Cunia. We decided this year to breed some of our best Maine cows back to breed legend, Draft Pick, whose semen sells on the open market for $150/straw. It came as no surprise when S58's calf A339 was one of our favorites. This is a powerfully made, athletic calf with tons of bone, middle, width and power to add style and pounds to your calf crop.

Draft Pick — General
Black Ruby
Miss Yardley X31 — OCC Just Right
Miss Yardley U75 by Sitz Tradion

Here's another great son of Maine icon, Draft Pick, out of a purebred OCC Just Right daughter. A405 is a unique individual who will add powerful performance, excellent carcass traits, and show stopping style to your cow base with his 76# BW, 750# WW, and 1,370# YW. He's free moving, cool fronted and big bodied. OCC Just Right has been one of Griswold's favorite female makers. The arithmetic has been done and the sum is in your favor.

In my lifetime

We just returned from the great Denver Stock Show where the weather was perfect and we had an enjoyable time.

I have been going to this show for 64 years. It is like a reunion seeing all my old friends from across America. There were only Herefords, Angus & Shorthorns there in those early years and they had many great Quarter Horses which I enjoyed seeing, like the great Skipper W. They hauled all these cattle to the show on the train. Many of these cattle were squatty and had very little performance. They had about bred the milk out of those Herefords and they would put those show calves on nurse cows. Out in back they had a big tent that housed all the Holsteins and Jerseys. Then they went to the other extreme with Chianias and some Simmentals and some Angus that were way to tall and not enough muscle in them. Now they have the extremes of many of theses club calf heifers that have to have their calves pulled or cut out. They don't give much milk, are not fertile and don't have much growth or performance.

In my lifetime I have seen more scientific advancement and changes that any other era of time. When I was a boy people were SELF SUFFICIENT. Everyone had milk cows, pigs and chickens and raised a big garden. We were all poor but we didn't know it and we were just as happy or more so. There were no trucks or trailers. You rode a horse or went with team and wagon. My Granddad was in with his 2 brothers and they would buy a lot of calves in one area and then buy some hay 50 or 150 miles away and my Dad and his brothers would drive them to this hay and feed them all winter, then drive them to summer pasture. When they sold them they would drive them 100 miles and load them on the railroad. We would drive 400-500 pairs 75 miles every summer and fall to Asay Creek and then back. One of my grand Uncles would drive a big herd of cattle 175 miles to winter range where it didn't snow much. He would take a pack horse and live in a tent on potatoes and salt bacon all winter and then drive them home in the spring. From this mode of transportation to modern jets is a miracle. The great advancements in medicine and doctors skills are remarkable.

But the greatest advancement is cell phones and computers. They simply baffle me with all you can do with them. To think that a cell phone can take a picture or video and instantly send it anyplace on earth is such a miracle. To be able to put an address any place in the country and have your phone tell you how to get there is amazing. The information that you can store in these computes just astounds me.

I hope that all of you appreciate the great, great blessing of growing up and living in America. The standard of living we have had is the greatest the world has ever seen. The Constitution is the greatest document of government that has ever been in the world along with the Declaration of Independence. We have had the free enterprise system and have been FREE to think, make our own decisions, dream and think of doing things better to make life easier and inventing thousand and thousands of machines and every other imaginable thing and many things that are not imaginable. IT IS THE PROFIT INCENTIVE SYSTEM THAT HAS given people the incentive to achieve and better themselves and the world.

PEOPLE THAT HAVE WORKED HARD AND CREATED DIFFERENT KINDS OF PROPERTY AND WEALTH DESERVE TO KEEP IT AND THIS IS WHAT HAS DRIVEN OUR ECONOMY AND CREATED NEW BUSINESSES AND NEW JOBS. Now we have a government that wants to take all our money and property and re-distribute it to those people that are too lazy to work. This is socialist communism and it has failed wherever it has been tried. There is no incentive to get ahead and they can't feed themselves and their standard of living is much lower.

It just blows my mind that so many of these corrupt government leaders, the liberal news media, and the other liberals of this country want to change everything and make it a third world country. They are tramping our great and SACRED CONSTITUTION into the mud. They are driven by greed and power and want to make all of us slaves to them. I HOPE AND PRAY EVERY DAY THAT THERE WILL BE ENOUGH HONEST, HARD WORKING CONSERVATIVE CITIZENS THAT CAN SAVE OUR GREAT COUNTRY……

Gib Yardley

This stout made, moderate bull is a maternal brother to $8,200, Yardley Glamour that sold in last year's sale to Jones Show Cattle of Ohio. R186 has been a real breeding cow with seven calves averaging 700#WWs; his grand dam has in turn averaged 716#WWs on six head. Here is powerful performance in the right kind of package.

BW: 2.0 WW: 60.1 YW: 81.0 MK: 23.6

An old Cherokee told his grandson, "My son, there is a battle between two wolves inside us all.

One is Evil . It is anger, jealously, greed, resentment, inferiority, lies and ego. The other is Good. It is joy, peace, love, hope, humility, kindness, empathy, & truth.

The boy thought about it, and asked, "Grandfather, which wolf wins?"

The old man quietly replied,
"The one you feed."

THE FAMILY

A PROCLAMATION TO THE WORLD

THE FIRST PRESIDENCY AND COUNCIL OF THE TWELVE APOSTLES OF THE CHURCH OF JESUS CHRIST OF LATTER-DAY SAINTS

WE, THE FIRST PRESIDENCY and the Council of the Twelve Apostles of The Church of Jesus Christ of Latter-day Saints, solemnly proclaim that marriage between a man and a woman is ordained of God and that the family is central to the Creator's plan for the eternal destiny of His children.

ALL HUMAN BEINGS—male and female—are created in the image of God. Each is a beloved spirit son or daughter of heavenly parents, and, as such, each has a divine nature and destiny. Gender is an essential characteristic of individual premortal, mortal, and eternal identity and purpose.

IN THE PREMORTAL REALM, spirit sons and daughters knew and worshipped God as their Eternal Father and accepted His plan by which His children could obtain a physical body and gain earthly experience to progress toward perfection and ultimately realize their divine destiny as heirs of eternal life. The divine plan of happiness enables family relationships to be perpetuated beyond the grave. Sacred ordinances and covenants available in holy temples make it possible for individuals to return to the presence of God and for families to be united eternally.

THE FIRST COMMANDMENT that God gave to Adam and Eve pertained to their potential for parenthood as husband and wife. We declare that God's commandment for His children to multiply and replenish the earth remains in force. We further declare that God has commanded that the sacred powers of procreation are to be employed only between man and woman, lawfully wedded as husband and wife.

WE DECLARE the means by which mortal life is created to be divinely appointed. We affirm the sanctity of life and of its importance in God's eternal plan.

HUSBAND AND WIFE have a solemn responsibility to love and care for each other and for their children. "Children are an heritage of the Lord" (Psalm 127:3). Parents have a sacred duty to rear their children in love and righteousness, to provide for their physical and spiritual needs, and to teach them to love and serve one another, observe the commandments of God, and be law-abiding citizens wherever they live. Husbands and wives—mothers and fathers—will be held accountable before God for the discharge of these obligations.

THE FAMILY is ordained of God. Marriage between man and woman is essential to His eternal plan. Children are entitled to birth within the bonds of matrimony, and to be reared by a father and a mother who honor marital vows with complete fidelity. Happiness in family life is most likely to be achieved when founded upon the teachings of the Lord Jesus Christ. Successful marriages and families are established and maintained on principles of faith, prayer, repentance, forgiveness, respect, love, compassion, work, and wholesome recreational activities. By divine design, fathers are to preside over their families in love and righteousness and are responsible to provide the necessities of life and protection for their families. Mothers are primarily responsible for the nurture of their children. In these sacred responsibilities, fathers and mothers are obligated to help one another as equal partners. Disability, death, or other circumstances may necessitate individual adaptation. Extended families should lend support when needed.

WE WARN that individuals who violate covenants of chastity, who abuse spouse or offspring, or who fail to fulfill family responsibilities will one day stand accountable before God. Further, we warn that the disintegration of the family will bring upon individuals, communities, and nations the calamities foretold by ancient and modern prophets.

WE CALL UPON responsible citizens and officers of government everywhere to promote those measures designed to maintain and strengthen the family as the fundamental unit of society.

This proclamation was read by President Gordon B. Hinckley as part of his message at the General Relief Society Meeting held September 23, 1995, in Salt Lake City, Utah.

Yardley Cattle Company Sire Lineup

Three seperate breeds, three individual herds of cattle, one common goal. Our focus in all three breeds is to produce cattle with rib shape, dimension, solid tops, easy fleshing, and be structurally sound and fuctional. We will continue to focus on solid cow families combined with powerful herd sires. Semen Available on all sires.

GCF Billy the Kid

1/2 SIMM 1/2 ANGUS REG # 2548887

Sire: MCC Cupid by OCC Legend

Dam: GCF Miss Reflection by CNS Dream On

Billy the Kid did not disappoint. He has sired a group of calves second to none. They are big bodied, stout made, and there just isn't any throw aways in them. They exhibit a soft made, easy doing look that is popular in everyone's cow base. Billy the Kid was a member of Grindstone Creek Farms Pen of Three in Denver 2011. He has quickley earned a place in our Herd sire pen. You're going to fall in love with his daughters at this years Focus on the Female.

Y1 Whirl of a Dream W361

PB SIMMENTAL REG # 2533644

Sire: CNS Dream ON by Nichols Legacy

Dam: Miss Yardley B75 by Whirlaway

Whirl of a Dream was the pick of our Simmental bull calves two years ago. He's big topped, large scrotaled, with bone and great muscle shape. His dam, B75, has been a top producer for us. She raised this calf at 17 years old, he weaned off at 712# with no creep and she was fat when she came home. A wise cattleman once told me if you love the cow, breed one of her sons and you'll replicate her. There is performance with power in this pedigree. We couldn't be more excited about his calf crop. They are functional, big ribbed, thick made cattle with performance. His bull calves last year averaged higher than any other sire group, averaging over $7,000.

Miss Yardley T170

Yardley Utah

3/4 SIMMENTAL 1/4 ANGUS REG # 2641894

Sire: GCC Hard as Steel

Dam: Miss Yardley T170 by Dream On x Corrector

We consider this bull one of the very best, if not the best bull we have ever raised. I am as critical a bull buyer as there is in the country and there isn't one single thing I don't like about this bull. He has perfect phenotype every place you look at him. I don't like high tailed cattle. I want them square over that tail head and he is. Jeannie loves his perfect built, moderate sized mother as good as any cow we own. L21 was seven years old when we sold her, she brought $7,700 selling to Greg Kroupa of White Lake, SD. She was as pretty a cow as we've ever owned. T170 was her last calf that she had and is as pretty as her dam. Owned with Werning, Goken, Harwood, Healy, and Trennepohl.

GCC Hard As Steel 144W

1/2 SIMMENTAL 1/2 ANGUS ASA REG # 2511031

Sire: SVF Steel Force S701

Dam: OCC Jaunada 898L by OCC Homer

I had the opportunity to go to the Grass to Grid Sale, before I married John. I fell in love with Hard As Steel before I was real sure I was in love with John! I circled his lot number, put a star next to his name, and wrote love this bull in my footnotes. With a 70# BW, 15.67 REA, and a 40.5 yearling scrotal he was one you could like off of paper but he got better after a visual analysis. He is a female maker that is huge bodied with fleshing ability and style. His first calf crop did not disappoint. Owned with Curt Schoner, and Griswold Cattle Company. His mother has been in ET at Griswolds, she is one of the best cows that they purchased from Tim Ohlde. Hard as Steel cost us $12,000. He sired many high dollar cattle for us this past year.

GCC Nickles n Dimes

PB SIMMENTAL ASA REG # 2659379

Sire: SVF Steel Force by CNS Dream On

Dam: AJE/JF Aunt Joys Elegance by 3C Macho

Joy's Elegance was Grand Champion in Denver in the Junior show and matured into as picture perfect cow as she was show heifer. A true test of a great show heifer doesn't come in the showing, it comes in her ability to produce and transmit the same look and quality in her offspring. Joy's produced $106,000 in progeny sales this past year on four head with one of the most consistent flushes ever produced at Griswold Cattle. The two yearling heifers produced are proving to be as competitive in the show ring as their great dam. Nickels n' Dimes is big topped and complete with plenty of rib, dimension, style and power with a killer look. This is the kind of bull to change a program with! Owned with Griswold Cattle.

Joys Elegance

Yardley Ensign Z394

3/4 SIMMENTAL 1/4 ANGUS ASA REG # 2690517

Sire: STF Shocking Dream by Dream On

Dam: Miss Yardley W151 by 3D x Treasure x N130

Great cattle it seems are built by great cow families and the E119 cow family has been one of the most profitable we have ever owned. It doesn't matter the generation of E119 falls back through the pedigree chart they are destined to be good. N130 is a daughter of K114, E119's best daughter and both donors. all three of these great females have produced sale toppers, the quality doesn't get any better. Ensign is a bull that stuck out as soon as you walked in the pen. With plenty of rib, bone and power along with the look it takes to make class winners and sale toppers. Then you looked to his pedigree and got even more excited. He's the real deal and we couldn't be more excited about him!

Miss Yardley W151

Yardley Chrome Y256

POLLED PB SIMMENTAL ASA REG #2629556

Sire: Flying V Cut Above

Dam: Miss Yardley W122 by 3C Macho x Bonanza x Whirlaw

Longevity is an essential part of a profitable cow. This bull is out of a first calf heifer, who is out of one of the two oldest cows on our ranch. She is still going strong at 16 years old! She has averaged 81# BW's on 14 head of calves! Out of one of the premier purebred calving ease Simmental sires, Cut Above. With a smooth shoulder and softness throughout. Chrome has proven himself as a purebred calving ease herd sire that is an outcross to Dream On.

STCC Long Haul

PB SIMMENTAL REG # 2540264
Sire: Shocking Dream by Dream On
Dam: Miss Fancy Yardley T85 by 3C Macho

Long Haul's dam was the pick of our heifer calf crop in 2007 by Trennophl and Rist of Indiana. Long Haul bred 45 head of cows this spring and held his flesh as well as any bull we have ever used. He was Intermediate Grand Champion bull in Denver 2012. He's moderate framed, cool made, and his cow family stands second to none. His Granddam produced the $21,000 high seller from last years sale that sold to Jones Show Cattle and Tulle Cattle Co. A maternal sister to his dam produced Sugar Plum, a crowd favorite in our 2009 sale that sold to Wayne and Barb Ohlrichs. Sugar Plum produced a bull calf this year that Wayne and Barb said will be big time. Case and point is this cow family will PRODUCE!

Yardley Wah Wah Z303

3/4 SIMMENTAL REG #
Sire: Billy the Kid
Dam: Miss Yardley U154 by Ranchhand x E119

Wah Wah was the pick of our herd for our next herd sire in our bull battery. With his flawless phenotype that combines a massive hind quarter with a big top, deep chest, smooth shoulder, big hoof and ideal leg set in a unique blend of power and softness. He has an equally impressive set of weights with a huge spread from 78# at birth to 764# at weaning. His quiet disposition and awesome pedigree that traces back to our herd matriarch and donor E119 and is filled with equally impressive herd matrons, make Wah Wah the complete package and impeccable addition to our bull battery that he is.

Yardley Zion X288

ANGUS REG # 17036377
Sire: SCC Apache Brave
Dam: Miss Yardley S504 by SAF Bando 5175

S504 has been one of our very top producers, she does not miss. Zion was a bull that stood out as a top individual from the time we weaned. He had as much rib, rear quarter, power and overall mass as any bull in the pen. We just weaned his first calf crop, they have performance and eye appeal. He was severely hurt as a yearling, we babied him along for a solid year and he recovered. He is as pretty a mature bull as you could picture with the pedigree and performance to stand out from the crowd.

OHL Next to Heaven 17Z

ANGUS REG # 17374374
Sire: Plaineview Lutton E102
Dam: TC Freedom

OHL Next to Heaven was the leadoff Lot 1 bull in our good friends Wayne and Barb Ohlrichs sale this past spring. They felt he was one of the best bulls that they have ever raised of any breed. He has performance, muscle, body, smoothness, structure, style and balance - he has it all. You could label this bull any breed you wanted and be exited about him, there just isn't many Angus bulls that are made this good! When you study him from the ground up it's hard to find a hole in him. It's pretty easy to see why he created such a stir in Denver, he's the real deal!

Yardley Doc Skipper

ANGUS REG # 16248110

Sire: OCC Doctor

Dam: Miss Yardley N181 by Xplorer by Krugerand 490

Great cattle come from great cow families and Yardley Skipper hails from one of the best. His maternal sister sold in our Focus on the Female 2009 for $16,200 to Schnoor Sisters of Chowcilla, CA. Wayne and Barb Ohlrichs were the contending bidder and went on to purchase Miss Yardley N181 for $20,000, she is a hit and never miss cow. You'll see from the feature lots in this sale that Skipper is following the tradition of the cow family behind him. He is functional and stout with the bone and body that you seldom see in PB Angus. He has been an extremely consistent producer of quality.

SCC Apache Brave

ANGUS REG # 15759398

Sire: OCC Legend 616L

Dam: Y Annie Coed 928 (Krugerrand granddaughter)

Apache Brave is going to go down as one of the greatest sires of Yardley Cattle Co. His progeny are top of the pen with 11 head of bulls averaging $4,568. He is an easy calving sire that produces cattle that have look and style. Grass fat cattle are what we need to breed. He always maintained his flesh while breeding cows and he wasn't a bull that needed to primped and pampered. Apache was a moderator that kept performance and bred depth and rib into his progeny. Owned with Matt Sherwood.

SooLine North Country

ANGUS REG # 16996619

Sire: HF Kodiak 5R

Dam: Soo Line Annie by Cudlobe Yellowstone

A complete out-cross to most American pedigrees, North Country brings thickness, big bodied, strong uddered, eye appealing look to the table. Sired by Kodiak and out of Soo Line Annie. Soo Line states North Country "is the result mating of the two greatest individuals they have ever owned." Soo Line Annie K was the Champion Female at the World Angus Forum in 2009. She sold for $100,000 and Kodiak sold for $150,000. One of the most exciting aspects of North Country comes from the consistency of his dam to produce high dollar, eye appealing progeny. The power of a cow family is immeasurable. North Country carries plenty of look and style along with an extra dose of performance, bone, and scrotal development.

Yardley Royal Jet

ANGUS ASA REG #16704437

Sire: OCC Jet Stream

Dam: Miss Yardley R192 by SC Stockman

Royal Jet is the type of bull that defines where we are taking our program; Soft made cattle that carry performance, thickness, fleshing ability, and style. OCC Jet Stream is now deceased, he stands as one of Ohlde's greatest herd sires. Look at the performance this bull carries coupled with a perfect phenotype. This is as good as Angus bull as you will find anyplace. We used him to clean up all of our Angus heifers this past year. He's the type of bull that will add belly, rib, and doability, without taking pounds away from your bottom line.

YARDLEY GENETICS

built on cow families that flat out work

We couldn't be more proud of our personal herd sires. They are real world cattle for real world cattlemen. We travel the nation to make sure our herd bull battery is as strong as what we have in the tank. They get their own set of cows and are expected to work for a living. The bottom line is they have to produce or we don't keep them. Try our Yardley Genetics. We guarantee you won't be disappointed. They are backed by solid cow families generations deep. Cows get individually mated at Yardley Cattle Co. Performance, eye appeal, brith weight ect are evaluated and paired accordingly to how Dad thinks they will cross the best. We don't breed to based off of an API number, or to try and make a purebred, dad has always bred the cattle to make them better. Dad has spent his life breeding and establishing a cow base that is second to none. We focus on udder quality, disposition, and actual individual performance, things that an EPD can't and won't tell you. You want to see how our cattle work, walk out in our bull and heifer pens, the proof is in progeny.

Talk to us about volume discount on semen. Let us help you put Yardley Genetics to work for you! Bring your semen tank on sale day to save on shipping! Call ahead for your oder.

Congratulations to the Emma Vickland family!

YARDLEY HIGH REGARD

PB SIMMENTAL ASA # 2522822

Sire: Y1 Impressive by Dinero x Power Surge

Dam: Miss Yardley T68 by Pinion

Yarldey High Regard was the $30,000 high selling bull in our 2010 sale to John Goken and Dale Werning Families of SD. Sired by Yardley Impressive x Y1 Pinion. The calves sired by High Regard are stout, cool made, and consistent. He is siring sale toppers across the country. Just last week Jones Show Cattle a High Regard daughter topped the sale commanding an impressive $75,000. Another daughter was crowned Grand Champion at the prestigious and tough Simmental Junior Nationals for Emma Vickland and went on to win in the Junior and Open division at both the American Royal and Denver. High Regard hails from generations of good uddered, broody made females. As a complete outcross to Dream On he is the go to sire for functional, consistent quality. Sexed semen available.
