Her sire, Yardley Overhaul, was the impressive \$20,000 high seller of our '14 bull sale selected by the great folks of renowned Wheatland Cattle Company in Saskatchewan Canada. They couldn't be happier with his daughters. They report tremendous udders, fleshing ability, growth, performance and phenotype. Before sending him north of the border we collected him and have had the same experience. D136 just weaned a 750# bull this Fall. Her dam is an outstanding producer and daughter of Yardley High Regard.

When she arrived we were super impressed with her femininity, depth, volume, capacity and ideal balance, along with her perfect udder and great athleticism. She stems from the cow family that produced Chill Factor and GCC Legacy at Griswold's.
