

# YARDLEY *Cattle Company*

*Focus* ON THE *Female*

SATURDAY, 21ST OF NOVEMBER 2020  
1:00 (MST) at the ranch in beautiful Beaver, Utah

# Welcome

Dear Friends, Fellow Cattlemen, and Valued Customers:

Welcome to our 43rd Annual Focus On The Female bred cow and heifer sale. From the beautiful mountains of Southern Utah our family sends greetings to all of you.

We have something for everyone in this sale and the quality is as good as you will find any place in America. Our cattle have worked for thousands of other buyers and THEY WILL WORK FOR YOU! Last year we had cattle go to 21 states from Pennsylvania to California, Texas to South Dakota. Our cattle are backed by many generations of highly productive cow families THAT HAVE STOOD THE TEST OF TIME. Our objective is the production of cattle that have a lasting economic significance and make a profit for our customers. THESE ARE NOT ORDINARY CATTLE. IF YOU WANT THE BEST WE HAVE THEM IN VOLUME.

I am 87 years old and have spent my life raising a wonderful and loving family and breeding and selecting cattle for PERFORMANCE, MATERNAL TRAITS AND EYE APPEALING GOOD LOOKS that you always enjoy seeing and will top the market. Fifty three years of AI'ing and using the best bulls we can find or raise has produced one of America's greatest cow herds.

It is the mother cow that is the most important part of any operation. NO MACHINE CAN BEGIN TO COMPETE IN EFFICIENCY OR THE COST OF OPERATION WITH A GRAZING COW. Our cows are run on a grass and forage based range the year around. They calve unassisted on desert winter range and summer in the high mountains. Fleshing ability is a function of body type and not an EPD or any other number. OUR cows are deep bodied, thick, square butted, big topped, heavy muscled, gentle, fertile and structurally correct.

These traits can best be analyzed by visual appraisal from the eyes of a stockman and assessed along with performance data. We analyze EPD'S but the main selection tool we have always used is individual performance, birth weights, weaning weights, yearling weights plus eye appealing good looks and structurally correct conformation.

THIS IS A FAMILY OPERATION. I am very grateful for the love, hard work, help and interest of my wonderful wife and family.

We are also very grateful for the hard work and dedication of our wonderful herdsmen Josue Garcia and Jose Guzman. They have been with us for many years, know how to do things right, and put in many long hours.

WE LOVE THIS GREAT COUNTRY OF AMERICA and all the blessings we have had by living here. I was named after my uncle Gib, James Gilbert Yardley who died in the 1st World War in France defending FREEDOM. This is the price my family paid for FREEDOM.

This has been a different year for all of us full of fears and uncertainties. We see the need more and more for grounded Christian principles in our lives, homes, families, communities and nation. Many divisive groups are trying to tear our Country and unity apart. Christ taught us to love and serve one another; ALL LIVES MATTER, they matter to God and they should matter to us. We need to stand up for Christianity and the vitally important freedoms which we enjoy in this great land of America. We need God in our lives and in our country now more than ever.

"Our nation was founded on prayer, it was preserved by prayer, and we need prayer again...I plead with you...to pray for this country, for our leaders, for our people and for the families that live in this great nation founded by God." —M. Russell Ballard

We also raise some very fancy paint & quarter horses. They are hardworking ranch horses that we love and are about like part of our family. I have had the same family of paints for 75 years.

We'd like to extend our gratitude to all our customers and friends. We really appreciate your friendship and business. We are grateful for your confidence in our cattle, our program and family.

We look forward to seeing you at the sale and talking with you on the phone. GOD BLESS YOU AND GOD BLESS AMERICA!

Yours for a better cattle business,

*The Gib Yardley Family*

### SALE AND RANCH STAFF

*Herd Records:* Michelle Smith, Minersville, UT  
*Sales Clerk:* Steve Barton, Paragonah, UT  
*Ranch Staff:* Josue Garcia, Jose Guzman,  
Steven and Leslie Yardley, Rodney and Tawnya Teichert  
*Veterinarian:* Dr. Evan Yardley, Beaver, UT  
*Ultrasounding:* Dr. Phillip Firth, Garland, UT  
*Brand Inspector:* Thane Marshall  
*Pay Clerk:* Michelle Smith, Lori Hoffman, Emily Maxfield  
*AI Technician:* Zane Yardley  
*Catalog Design:* Chris Petersen, Cedar City, UT  
*Lunch:* Darren Oberg Family, Genola, UT

### TRANSPORTATION

Beaver is 200 miles away from Salt Lake City or Las Vegas, NV, on I-15. From Salt Lake, Sky West Airline commuter (The Delta Connection) serves Cedar City, which is 50 miles south of Beaver. United, Delta, and American Airlines, serve St. George Ut, which is 100 miles South of Beaver on I-15. Beaver has many excellent motels and restaurants, and an airstrip for private planes. You must call us to meet your plane as there is no taxi service.

### TRUCKING & DELIVERY

Please leave detailed information with the sales clerk about your trucking needs and arrangements. We will work with you to help find the best and most efficient means for hauling. We will guarantee to have your animals delivered to a central location within 200 miles of your home anyplace in the United States for no more than \$300/head. **This guaranteed delivery price does not apply to cattle that have not been fully paid for within ten days of the sale date.** Last year we got a full truckload delivered to Zanesville, OH for \$150/head.

### ACCOMMODATIONS:

Request the Yardley Cattle Company special room rate. Please try to reserve rooms as far in advance as possible to guarantee room rate.

### RANCH AND SALE LOCATION

Once you arrive in Beaver, go to the only traffic light in town on the corner of Main and Center Streets. Take Milford Highway 21, go West on Center 1 & 1/2 miles to the Yardley Black Cow/Calf sign, turn right and proceed North and West across the field to our sale barn. You will pass our house 1/4 mile North of the highway, but continue one more mile to the barn.

**UPON Leaving Hwy 21, traveling North on the gravel road, except for our house and lot, the horses, cattle and land do not belong to us until you cross the cattle guard just below our sale barn.**

## TERMS & CONDITIONS

**TERMS:** No cattle will leave sale yards until full settlement has been made immediately after the sale. Payment terms are cash or a good check. All "returned" or insufficient checks will be immediately turned over to the District Attorney for immediate prosecution. This is a felony and charges will be filed.

**BIDDING:** All animals will sell to the highest bidder. Any disputes or challenges regarding bids will be settled by the auctioneer whose decision will be final.

**RISK:** All animals are at the owner's risk prior to their sale and become the property of the buyer as soon as the animal is declared sold by the auctioneer at which time the buyer assumes all risk.

**ANNOUNCEMENTS:** Announcements from the auction block will take precedence over any printed matter.

**BREEDING DATES:** Heifers will start calving February 1st and cows February 20th. Most of the cows will calve in March with some April and a few into May. These cows have been pregnancy tested by a reproduction veterinarian to determine estimated calving date. **We cannot guarantee they will calve on this date.**

**HEALTH:** Every animal in this sale, to the best of our knowledge, is healthy and eligible for interstate shipment. Cows were vaccinated last spring for IBR, P13, BVD, BRSV, Vibrio, 5-way lepto and trichomoniasis. The heifer calves have been fully vaccinated and boosted. All cows that have had calves are vaccinated in January with Scour Guard 4 and 8 Way. They just need a booster and the bred heifers should get two shots, three weeks apart before they calve. All Cattle have had Dectomax, and given OneShot Ultra 8. Calves have had two shots Bova Shield Gold, Somnus, and OneShot Ultra 8.

**BREEDING GUARANTEE:** All females sold under the conditions "safe in calf" have been pregnancy checked, and sell with no further guarantee. No guarantee is given that bred females will deliver a live calf.

All heifer calves are guaranteed breeders. If the heifer failed to breed, we require a statement from the veterinarian who checked her, stating the problem and that the problem was not due to negligence or improper management, which will void the guarantee. This guarantee may be void if 1) a female is highly obese, has been shown extensively past July 1st and has not steadily been attempted to be bred and 2) if she is flushed at any time in the first year after the date of the sale 3) or if she is in poor body condition. These three exemptions do not apply if the female is examined by our vet to have an underdeveloped reproductive tract that would have

been present at the time she was sold. Infections or other enlargement do not constitute "undeveloped."

100% of the purchase price less salvage value on heifer calves will be credited to the next sale. No other expenses occurred in the female will be reimbursed to the buyer. In cases where the animal is subject to hormonal or surgical reproduction techniques or damage caused by foreign bodies after the sale, this contract is null and void. The seller is not responsible for sickness not apparent at time of sale. It is useless to breed more than two heat cycles, artificially. If they haven't settled artificially then, they must be put with a fertile bull for the summer. In no event will the seller be responsible for more than the purchase price, less salvage value.

**AI CERTIFICATE:** The purchase of A.I. certificates is the responsibility of the buyer, as well as, the registration of all calves born after sale day.

**REGISTRATION CERTIFICATES:** Supplied on eligible animals upon request on the sales slip at time of settlement or within 20 days. Leave the name and address to which you would like purchases transferred on your sales slip.

**CONTRACT:** The above Terms and Conditions of this sale shall constitute a contract between buyer and seller and be equally binding on both. Animals that are resold following the sale shall constitute a separate transaction and the rights and obligations of the two parties connected there to are not covered by these Terms and Conditions.

**TRUCKING:** All trucking, pricing and trucking fees are the responsibility of the buyer, but we will help you all we can with coordinating loads.

**LIABILITIES:** Although accidents at livestock sales seldom occur, everyone attending this sale does so at their own risk. We try to keep the most accurate records possible and have bull tight fences, but once in a while on a rare occasion, accidents of breeding occur that we are not aware of or cannot control. We will do everything we can to determine the correct parentage, but cannot guarantee it. The owners and employees of Yardley Cattle Co. assume no liability, legal or otherwise in the event of an accident, bodily injury, theft, error or omissions in catalogs or parentage verification.

Cattle are kept in their own individual breeding groups until the first to mid July. Due to size and layout of the Forest permit it is necessary to mix breeding groups at that time. Only our own personal herd sires are taken on the mountain. Select groups of cattle will stay with one sire all summer long, but on the majority of late calving cows we cannot guarantee sire parentage unless a parentage identification test is ran either by pulling 30 switch tail hairs or a blood test. IGENITY labs runs this procedure for around \$30.

[www.DVAuction.com](http://www.DVAuction.com)

For more information contact DV Auction at **402-316-5460**.

Before you can be approved you will need to provide a letter of reference from your lending institute. It must include the lenders letterhead, phone, address, contact person at the institution and a monetary range that can be used for purchases.

## ABSENTEE BIDDING

If you are unable to attend the sale but would like to bid on the lots offered we encourage you to call prior to sale day. There are two ways to participate in the bidding if you are unable to attend the sale.

### 1-Work with one of us to fill your order...

Due to the size of the offering it is impossible to picture every cow. There are many quality females that may not be highlighted that will fit your program. Feel free to call anytime PRIOR to the sale. Sale days are crazy!! It is much easier for yourselves and for us if you are able to visit with us prior to the sale about certain lots. Gib: 435-310-0041, Steven: 435-310-1725, Rodney: 801-824-8851.

### 2-Bidding via DVAuctions....

Bid via [www.DVAuction.com](http://www.DVAuction.com). For more information contact DV Auction at 402-316-5460.

### 3-Sale Day Phones.

These phones are only for bidding and we HIGHLY RECOMMEND PRIOR ARRANGEMENTS AS THE LINES MAY BE BUSY AND YOU MAY NOT BE ABLE TO GET THROUGH. If prior arrangements have been made we will accommodate you to the best of our ability.

Steven Yardley.....(435) 310-1725

Emily.....(435) 310-0038  
Angela.....(435) 310-1147  
John Griswold.....(405) 780-3300

### PRE-SALE REGISTRATION FOR ATTENDING BIDDERS AND ABSENTEE BIDDERS.

If you would like to register as an absentee bidder please call Michelle at the office at 435-438-2424. You will be required to list your bank telephone number and your drivers license number. All absentee buyers must be pre-registered. Any lots purchased by absentee bidders must be paid for in full via wire-transfer on the Monday, following the sale, prior to load-out or delivery unless prior arrangements have been made. We appreciate your cooperation

## PICTURED COWS!

**There are a lot of cows that are not pictured that are just as beautiful and productive as those pictured. We simply ran out of time!**

We take great pride in our "clean up" bulls, we call them our herd sires. Many of them come from top herds across the Nation or are hand selected from our bull calves each year. We know their lineage for generations, we know how their mothers milk, what their body condition score is, what type of feet and udder quality they have, and we only use the best. OUR BULLS IN THE PASTURE ARE OF EQUAL OR HIGHER QUALITY AS THOSE IN THE TANK and we take pride in their genetic merit. Don't hesitate to buy a female that is pasture bred!

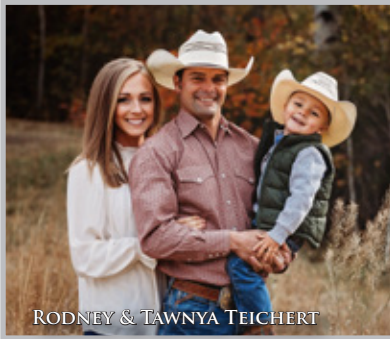

## STAY UNTIL THE END OF THE SALE!

ALL BUYERS WILL BE ENTERED  
INTO A DRAWING FOR CASH PRIZES.  
MUST BE PRESENT TO WIN!  
\$300 FIRST \$200 SECOND.

# YARDLEY

There is no need in any land for conflict between diverse groups of any kind. Let there be taught in the homes of people that we are all children of God, our Eternal Father, and that as surely as there is fatherhood, there can and must be brotherhood. Let there be taught respect for womanhood and manhood. Let every husband speak with respect, kindness, and appreciation for his wife. Let every wife look for and speak of the virtues of her husband.

—Gordon B. Hinckley

For this year's sale catalog we felt it would be neat to share with you some of our intimate stories and experiences that brought us closer to one another and to our Heavenly Father. Our prayers have not always been answered when we wanted or how we wanted, yet we have had too many experiences otherwise, to say they have not been answered, they have. We hold these experiences sacred and treasure them and hope you will to.

## A PRAYER IN A FIELD

It's interesting how God in his infinite wisdom uses different settings and experiences to teach us lessons that stick with us for a lifetime, such was my first experience with receiving a direct and personal answer to my prayers. It happened in a hayfield, a long time ago. When I was about eight years old I went with my dad down to a meadow near the small town of Greenville to "help" bale hay. Something happened with the baler that caused it to make too long of bales, and it had made quite a few before we realized it. So my dad sent me back with his treasured pocket knife that he had had since high school to cut the twine and scatter the bales so he could rebale the hay. Well after I got done I couldn't find my dad's knife high nor low. I searched that field front and back and went along each bale I had cut to try to find it for well over an hour, not wanting to tell my dad that I had lost his treasured knife.

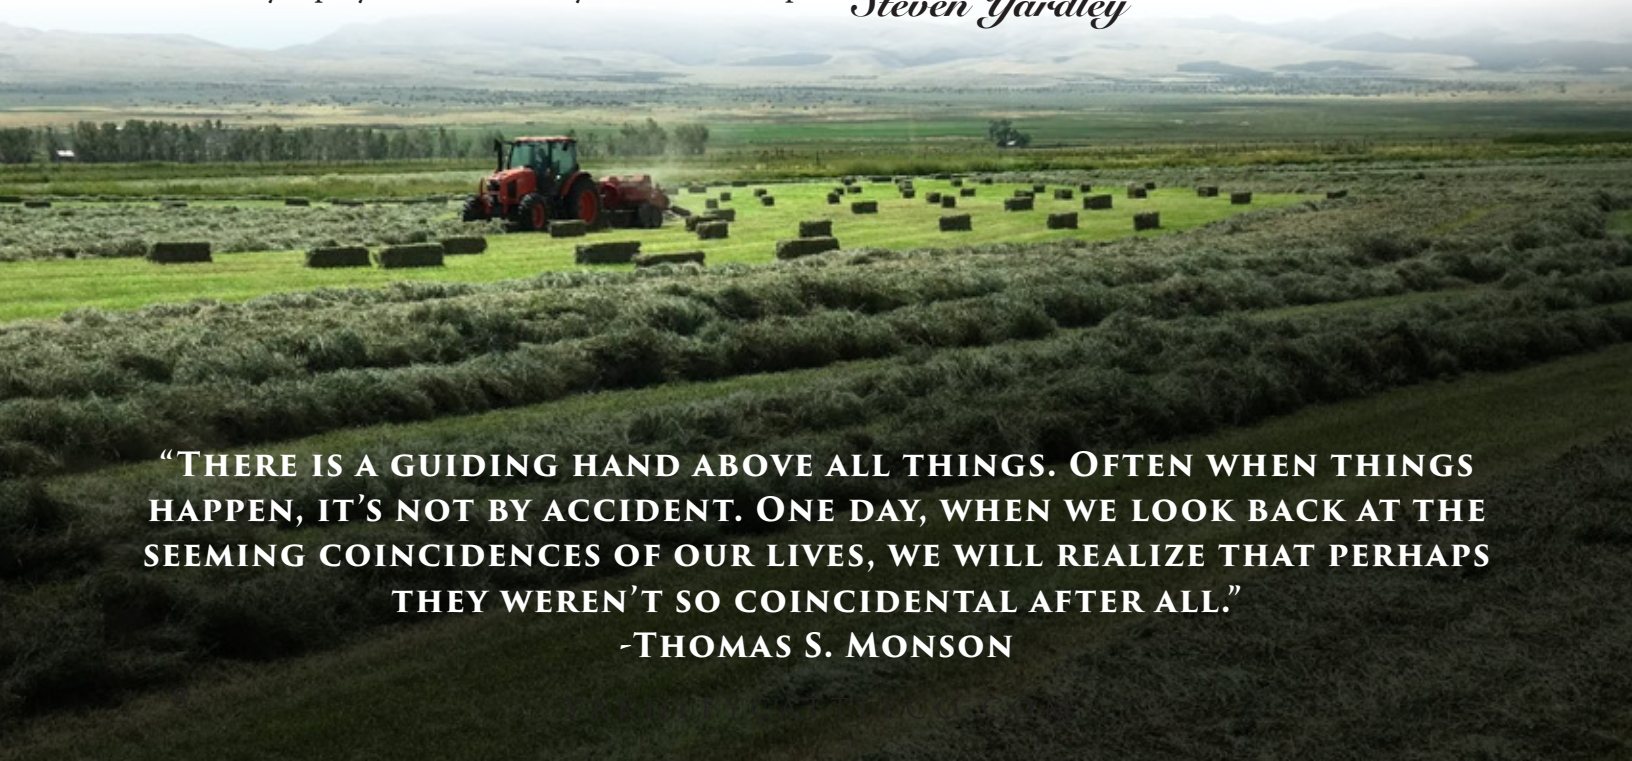

After I had been wandering the field for quite some time my dad came to see what had happened and what was taking me so long. When I told him I had lost his knife he shut down the tractor and searched with me for the elusive knife for a while as well, but try as we may the knife was nowhere to be found. There was no getting around it: the knife was lost.

Upon coming to this conclusion my dad said, "Perhaps we should say a prayer, and Heavenly Father will help

us to find that knife." So we humbly knelt down in the field, father and son, and said a simple meaningful prayer asking Heavenly Father to please help us find the missing knife. When we finished and I opened my eyes, I was amazed, there sticking in the stubble right between my knees was the knife we had so desperately been searching for. Even now I get cold chills writing about it.

Now you can say it was just coincidence or mere circumstance that that knife happened to be in that exact location, and I cannot prove you wrong. But I know and feel that God answered that heart felt prayer given so many years ago by a boy and his dad looking for an obscure knife, in a small field, in a remote location that in the eternal scheme of things probably meant nothing at all. But on that day, in that field, in my mind it meant an awful lot, and God in his tender mercies heard and answered my prayer; from this experience I know and can testify that God can and will answer the heartfelt prayers of the earnest in heart on much weightier matters of life, and when we lose much greater things, of much greater value and of much more worth than a little knife, the God of Heaven and Earth and Father of us all knows us, loves us, and is anxious to bless us, if we will but ask.

*-Steven Yardley*

A wide-angle photograph of a rural landscape. In the foreground, a red tractor is positioned in a green field, surrounded by numerous rectangular hay bales. The tractor appears to be in the process of baling or moving hay. The field is lush and green, with some areas showing darker, possibly wet or shaded ground. In the background, a range of rolling hills or mountains stretches across the horizon under a clear sky. The overall scene is peaceful and depicts a typical agricultural setting.

**"THERE IS A GUIDING HAND ABOVE ALL THINGS. OFTEN WHEN THINGS HAPPEN, IT'S NOT BY ACCIDENT. ONE DAY, WHEN WE LOOK BACK AT THE SEEMING COINCIDENCES OF OUR LIVES, WE WILL REALIZE THAT PERHAPS THEY WEREN'T SO COINCIDENTAL AFTER ALL."**

**-THOMAS S. MONSON**

## LESSONS FROM A TRAIN WRECK

24 years ago my mom was hustling us out the door to piano lessons. The phone rang and she impatiently told us to, "let it ring and get to the car!" Someone didn't get the memo or chose not to listen and picked up the phone. It was someone calling from the hospital letting her know my dad had been in an accident. They didn't give any of the details and so we waited and waited and waited. I hate waiting. The more time that went on the more serious we realized it must be. Finally she called to tell us my dad had been hit by a train and they were life fighting him to LDS Hospital in Salt Lake City. That night Michelle drove us to Salt Lake and we got to go in and see him. At this time he was responsive and talked to us. There were staples all around the top of his head holding his scalp on and he was really banged up. We were just glad he could talk to us. Little did we know that would be the last time he talked to us for weeks. In the middle of the night he took a turn for the worse. After the wreck one of the cows he was hauling hooked him and stepped on his throat. The trauma from the cow caused his throat to swell shut and they had to do an emergency tracheotomy. His body went into a comma and he was in that state for weeks. We slept at my grandma's house and drove in everyday to see him and my mom. Christmas morning my dad's sweet sisters and my mom's family made sure we all had something to unwrap. Jeannie and I bought a few things for "the little girls" as we lovingly called them 'til they

started graduating from high school. None of us cared about the presents we just wanted our dad to be ok and as kind as everyone was I was extremely homesick. Little by little my dad healed and we got our miracle. There were so many tender mercies and acts of love and kindness shown to our family. It was by far the hardest Christmas of my life but the one we loved each other the most. While gifts wrapped in pretty paper are nice their newness will wear off, they will break, and likely be forgotten, but, the gift of loving someone and raising their spirits is never forgotten.

*-Lori Ann Hoffman*

"Gib" Yardley appears to be in much better shape than his truck (pictured above) after a December 19 crash with a Union Pacific freight train. Although he is still listed as "critical" in an intensive care unit at LDS

## THIS LIFE WE CALL RANCHING

Every child should see the wonder of new life, a calf the first time it shakes its head and gets up on those wobbly legs. They should be able to stand next to their dad as his big, strong, calloused hands gently help a new calf to nurse. The range of emotion of a winter storm that comes through in the middle of calving, the joy, and the heartache. The realization that as a steward you have done all you could do but that you always wish you could do more. The pride that comes when you gate cut a tricky one down the alley and your dad tells you "good cut." The feel of dirt, grit, manure, and sweat at the end of the day and the feeling of accomplishment that comes with it. The humbleness of kneeling in prayer with your family around and humbly praying for the rain that has not come, the sale on a sick cow market, or to get through a tough calving season. The sunset on a hay field, the water through a just

jerked head gate, and the smell of your mare as you pull that wet saddle blanket after a long days ride. Everyone should know the feeling of riding back to the trailer after a long day under a sky full of stars. The feel of a horse cutting a cow out of the group and taking her to the corral, and smell fall as you ride up for the last gather through the quakin aspen lined cow trail. It's long days, long nights, meager living, betting on a better year next year and a hell of a way to raise a family. If we could share this life we call ranching with the world we could heal the hurt. If every man, woman, and child could feel the accomplishment of a stretch of fence built, a meadow all baled, and cows turned out for the first time in the spring we would heal this country.

*-Jeannie Yardley Griswold*

**Lot 1***Pick of the Heifers...*

This is a once in a lifetime opportunity to pick a female from all the replacement heifers. Many heifers that we've previously sold have gone on to win major shows, enter donor pens, and raise excellent calves that have done the same. Our "Focus on the Female" because at the end of the day when calves are weaned and sold that's what we're left with. These genetics are proven with power generations deep and cow families that have stood the test of time. We feel that this calf crop is our best to date leaving you many choices and opportunities with 200 heifers to choose from. Use this as an opportunity to catapult your program forward and add another phenomenal female to your herd!

You'll search long and hard to find this fancy of a blaze faced heifer; depth, width, and body coupled with eye appeal and dimension make her a front pasture female. With her whole life ahead of her she's the kind to build a whole herd around. She should have a fancy baldy calf out of Banchor; they're some of our favorites!

Miss Yardley E179, the beautiful dam of G47.

One of the jobs I hated the very most growing up was cleaning ditches. They seemed endless and if the wind came it just filled the ditches with more hay to be cleaned out again. The only good part was I got to drive the four wheeler. Clayton and I were given the job to clean ditches and after cleaning them in the "Big Meadow" we decided to go drive around on the four wheeler. We went all over in the Big Meadow seeing what tricks we could do and then hurried to the Northfield as we saw dust rising on the road from my dad's truck. As we got off to start cleaning ditches again, I realized I still had my handle but the forks had fallen off the pitchfork. My stomach sank. We pretended to work until my dad left and then went back to look for the forks in the biggest hay field we owned, covered in hay. We felt like we were looking for a needle in a hay stack. We looked for what seemed forever, but to no avail. So we promised to not say anything in hopes my dad wouldn't find out. The next day when my dad came in yelling I knew exactly why. We got a long, LOUD talking to about what would happen to the equipment if they picked up the pitchfork and not to come home again until it was found. He didn't realize our tracks were not easily retraced and he didn't care that we had already looked the day before. Finding the pitchfork was the only option, but after trying once more to find it, that didn't seem possible. Finally, we decided we'd tried everything we could do and we decided to pray. We got done and decided to push on the gas and let the four wheeler drive itself. To add to the climatic effect we closed our eyes (it was actually quite suspenseful seeing how fast and long we could go without steering or watching where we were going). Within a few minutes we hit a bump and as we opened our eyes and turned around there was the end of the pitchfork, tines down luckily. I knew that day no matter how silly my prayer sounded Heavenly Father was there, waiting for me to pray to Him so he could direct me on the correct path. - Angela.

This stylish designed female comes straight from the heart of the Griswold program; combining two of the most pivotal bulls in their program: GCC Gold Standard and HOC Broker. The Gold Standard daughters are beautiful, they are the right kind of cattle. There are countless stories of the first calf daughters sired by Gold Standard paying for their dams, selling for as high as \$25,000.

GCC 225E, the neat-uddered dam of G35.

GCC Gold Standard X615. Sire of G35.

From her nice front and smooth shoulder, extending through her smooth made, sleek design and extending into a powerful hip you're going to love the look of this fine female. She moves out with confidence and finesse on an excellent set of legs and feet with an ideal leg set and ample flex.

G20's sire, CCR Cowboy Cut, was the breed's #1 sire for registrations. Genex reports: "Cowboy Cut continues to be the go-to sire for calves with tremendous look and breed-leading numbers. Sons continue to top sales across the country, and daughters are admired for their feminine, yet broody, appearance."

CCR Cowboy Cut, the popular sire of G20.

G155 has volume, capacity, length and depth coupled with power and performance. There is so much to love and appreciate about this docile powerhouse! You'll admire her massive hind quarter, smooth shoulder lay, depth of body and rib extending from her heart girth to her flank. Her powerfully complete donor dam has done a tremendous job averaging 715# on eight offspring. Her first bull, a sale favorite, sold for \$7,500 to Beaver Creek Cattle Company, Waldon, CO. Her next, Yardley New Attraction, was an \$18,000 high seller in our '15 sale to Greg Shawcroft of La Jara, CO. Her last bull to sell, Yardley Giver, was our second leadoff bull selling for \$7,500 to the Kunzlers of Park Valley, UT.

The prolific donor dam of G155. \$18,000 maternal brother to G155.

DONOR QUALITY! It is rare to find a standout maternal sister to a breed icon like High Regard for sale. His daughters have caught the eyes and won the hearts of astute cattlemen across the nation as they have commanded top dollar and won purple ribbons everywhere they go. Combine this with the exceptional phenotype of Banchor and you have a home run! G607 is massive ribbed, has exceptional length of body, a long sweeping undercarriage, a massive, powerful hip, and ties it all together in excellent fashion.

-Considering the exceptional job her cornerstone donor dam has done for us with \$30,000 Yardley High Regard, \$14,000 Yardley Red Hawk, another \$7,000 son and a daughter who produced our '17 leadoff and high selling bull, \$14,000 Yardley Step Above; G607 has as much potential as any female in the offering in terms of notoriety, phenotype, genetic potential, and sheer profitability!

Yardley High Regard W242, the high-selling bull from the 2010 sale and maternal brother to G607.

What a way to start the Angus heifers! G171 is a deep bodied, zipper fronted, stylish female with an awesome, mouthwatering design. She is sure to make some purple ribbon quality offspring. Her dam was a broody made, moderate momma that weaned eleven classy calves including a \$7,000 standout bull selected by Jon Gabel of Culver Cattle Company and two more \$6,500 stud sons. G171 sells with an exciting early pregnancy to our pick of our '19 crop, Yardley Chunk!

## THE KEY TO THE PUZZLE = BALANCE

IT'S THE HARDEST THING TO KEEP IN THE FRONT OF OUR MINDS. WE ALWAYS WANT TO THINK THAT BIGGER IS BETTER, OR WE BUY BULLS BASED ON SPREAD EPD'S OR WE CHOOSE A BULL BECAUSE HE HAS ONE TRAIT THAT REALLY STANDS OUT. WE'VE ALL BEEN GUILTY OF IT, BUT THE REAL KEY IS "BALANCE," THE ONES THAT DO ALL THINGS WELL. I REALLY BELIEVE THAT THIS IS ONE OF THE HARDEST, IF NOT THE HARDEST, HURDLE IN BREEDING CATTLE. IF WE CAN STAY FOCUSED ON THIS, IT WILL MAKE US MORE PROFITABLE AND BETTER CATTLE BREEDERS.

Yardley Chunk G261, bred to G171.

Yardley Lad C320, a capacious maternal brother to G171.

Massive bodied dam of G13.

This heifer's long lived, profit driven dam has raised eleven calves. She produced a \$10,500 highlight in the bull sale of '12 and \$9,000 feature, Yardley Make Believe, in the same year's female sale, purchased by Laurie Kenny of Schaler, IA. Most recently she produced an impressive \$6,500 purchased by Decky Spillar of the renowned Silver Spur Ranch in Encampment, WY.

Phenomenal maternal sister to G251.

DONOR QUALITY! A227 is a proven producer of quality calves with a notable weaning ratio of 5@103! This includes the highlight and high selling \$24,000 heifer of our '16 offering, Yardley Doll Face selected by Greg Kroupa of SD. She sells with a full-sib mating by super stud, HOC Broker, to this phenomenal female. -A227's cornerstone donor dam played a pivotal role at our ranch in producing quality, sale topping genetics. Her two, featured daughters were high selling leadoff breds at \$20,000 and \$16,500, both maternal sisters to A227! In '15 another crowd favorite was selected by Ronnie Smith of Denton, TX for \$7,500!

Miss Yardley W172, the prolific donor dam of A227.

Yardley Jury Duty G279, a \$12,000 grandson of A227

The '16 \$24,000 High Selling daughter of A227.

Yardley Praiseworthy G501, a deep-bodied maternal brother to A227.

One story from Asay Creek that I have is this one-time Steven came over and we were sorting cows all day. We were either sticking them on the bench or back into the pasture, I can't remember. Anyways, it got dark and we kept riding and changing water all throughout the ranch and we ended up in the top by the little spring. It was pitch black and Steven told me to stop and wait while he rode off in the dark and changed a headgate. After what felt like an eternity of seeing bears and mountain lion shadows, Steven came back, and we headed back down. The top of the ranch has a lot of springs in it and I knew for sure that me and that dang horse were gonna end up in the bottom of one. But Steven knew his way through the meadow so I just followed him as good as I could. Low and behold we made it back to the cabin without sinking in a spring or hitting a fence. I learned that it's important to follow someone who knows the way. Following someone who knows the way will keep you safe from the unseen dangers out there in the dark.

- Matthew Finlinson

This fancy young maiden has done a tremendous job in her short career, two scale mashing calves that averaged 720#! As a first calf heifer she produced a \$7,000 son selected by our friends, the Kunzlers, of Park Valley, UT. E107's full brother sold and was selected by Allen Sweat of Heber City UT. Their dam, 204Z is a blazed faced beauty that carries the G- brand on her ribs and comes straight from the heart of Griswold's program.

Impressive full brother to E107.

**AI: 6/10/20 GEFF COUNTY O, EXP CALVING: MID-END MARCH**

If you're looking for a cow that will wean big calves every fall, this voluminous cow has a proven track record. Six calves averaging 664#. Included is a powerful \$5,500 son selected by our good friends Logan and Jeff Alder of Malad ID.

Yardley Lad C260, an impressive son of A157.

When I think back of my growing up years, one of the things that sticks out in my mind the most is consistency. We always knew where mom & dad stood on things. Shows we watched, language we used, clothes we wore. Even if you got kicked by a calf, it wasn't an excuse to use a bad word! I can still count on one hand how many times my mom has sworn in my whole life, idk if they'd even be considered swear words today! My Dads weren't too much worse, mostly "my Hell" or "oh Hell" was about as wild as it got. We knew we were expected to work and work hard. We heard the phrase, "hurry, hurry, hurry" every single day of our lives! Every day as we were rushing off to school my mom would always make sure we had family prayer before we left. Many times one of us would volunteer to say it, just so it wasn't a REALLY long prayer! We always had family prayer at night too. To this day, I know that every day, my family and all of my siblings and their families are prayed for morning and night. It wasn't until I got older that I realized some families had dinner at 5 or 6! I don't think we ever ate dinner until dark, ever! In the summer we had dinner at 9 or 10 at night. Mornings weren't spent sleeping in, my Dad would always tell us, "early to bed, early to rise" we always rose early but it didn't seem like we ever got to bed early. I remember my mom sitting in the hall and reading to us. She'd always read us scriptures and then she'd read us a chapter or two of Summer of the Monkeys or she'd tell us stories of our ancestors. I don't know how she had the patience or love to read to us at night, but it is one of my favorite memories. We were taught love of God, love of Country, and love of family. I am so thankful for the bond and love we all share. We are each others best friends and talk to and rely on each other daily. My family is truly my greatest strength. Every day I grow more grateful that I am so blessed to have the family I do. Love, Michelle

Lot 90

G108's beautifully designed dam was the \$8,100 featured high selling Maine in last year's sale to our great friend Cody Pehrson of Altonah, UT. 523D is sired by the great Irish Whiskey who has created a sensation in the industry that is untouched. Irish Whiskey transmits "the look" to not only his offspring, but down through generations. Whiskey daughters and granddaughters have won almost every major show across the nation. His semen sells for over \$400/straw... if you can find it. G108 sells with an early pregnancy to Daddy's Money, the \$200,000 valued calving ease bull of the breed!

Yardley Commissioner F287, out of a maternal sister to F185.

**AI: 5/29/20 BNWZ DATA BANK, EXP CALVING: 3/8/2021**

F185 combines genetics from two of the most popular sires in the Maine Anjou Breed: Maternal Made and Hard Whiskey. Maternal Made is the exciting sire that commanded \$300,000 at the "Embryos On Snow" sale! His daughters are winning in the show ring and we are even more excited as to what they are going to accomplish as cows. Hard Whiskey is one of the most unique, up and coming Maine bulls in the industry. He was a standout crowd favorite in Denver setting himself apart with a flawless structure, muscle shape, and massive bone.

**This cow is a little flighty.**

-She sells bred to another exciting Maine, Data Bank. He is an extremely well balanced smooth made individual that has an undeniable great look. He hails from some of the greatest cow families in the breed who have shown their power in the show ring, but most importantly in the pasture.

Following in family tradition, this moderate made red baldy has done an exceptional job in her short career at Yardley Cattle Company. As a first calf heifer she produced a powerfully impressive stud selected by Allen Brothers' Cattle of North Powder OR. This was followed by a masculine son selected by John Lish of Arimo ID. Her profitable dam produced a \$10,000 heifer selected by Bill Sloup of NE, and a massive \$7,500 son purchased by Lynn Richards of Fielding UT.

Yardley Compadre D275, an impressive son of B113.

This elite female produced Yardley Blackberry, a favorite feature show heifer of our '14 sale selected by JR Lewis of KS. She hails from a cow who has ratioed higher than any other cow on our ranch with five or more calves ratioing 113 and a 732# average on six calves! She is a moderate made, extremely deep and broody functional OCC Jet Fleck daughter. Z57's maternal grandam was a grand old herd matron that raised fourteen calves and raised two calves several years.

Miss Yardley F53, a broody daughter of D124.

I have a lot of memories praying for beloved animals to get better and not die- favorite pets, sick calves, newborn colts. It was common as we'd get ready for family prayer Dad would remind us to bless, "his old mare to get pregnant or to bless the cow with this tag # to get over her lameness." We'd do all we could with medicine and the vet- then after all we could do, we'd pray too. Flicka, an old paint mare had just had what we figured would be her last colt. We raced to the barn as fast as we could to see the new little one- the color, markings and gender! We sure were excited. However, this colt was born big and weak. I'd take it a bottle every few hours even through the night. I knew if it'd drink the milk it could get better. I'd work so hard trying to convince it to suck, sitting it up, pushing its mouth up and down. The colt got weaker and weaker, I was so tired and discouraged as I watched the life drain out of it. It didn't seem fair for a perfectly innocent colt to suffer so much and I knew Heavenly Father had the power to heal it and I begged Him to. I was upset, but as I prayed I felt a calming peace. I'd like to write there was a miracle and that little colt jumped right up, instead the colt died and I still cried. I didn't get what I was asking for this time, but I as I prayed I felt Heavenly Father was listening to me and loved me and that's a feeling I've always remembered. I know I wasn't praying to the wind. I know someone was listening. -Tawnia Yardley Teichert

She was Jose Garcia's pick of our entire heifer herd. \$6,200 featured show heifer, Yardley Eye Candy selected by good friend Cody Lucey of WV is a maternal sister to D104.

Yardley Eye Candy E72, an elegant maternal sister to D104.

## JULIE'S MEMORY

Growing up on a ranch was wonderful, and I couldn't have asked to have a better childhood or upbringing. Dad and Mom taught all of us by their example to love God and our Country, to be kind, work hard, and above all to be honest. We were taught that God loves everyone, and He hears our prayers. We are so blessed to have dad with us. Over the years, we have teased dad, that he is like a cat with 9 lives as he's had so many accidents. We soon learned Steven inherited dad's luck of having accidents.

I was about 10 and wanted to ride horses with Carolyn Yardley. Of course, Jeannie who was 5 and Steven who was 4 wanted to come ride with us. I wasn't exactly fond of having my younger siblings coming along. Grandpa Yardley was at the house and said he had a bad feeling about Jeannie and Steven riding with us that day, and that they should stay home. I thought at that moment, he was just trying to help me get some time away from my siblings. However, Dad said he would saddle the old mare for Steven and Jeannie, and they would be fine. We went down to the barn, dad saddled a horse for Carolyn, helped me saddle my favorite horse, Red Cloud, then saddled our old mare. When the mare was saddled dad helped Jeannie get on her. As soon as Jeannie was on, the old mare crow hopped a few times which scared Jeannie, and dad helped her get off the mare. Jeannie was nervous and went by the barn door with Steven. The old mare had always been super gentle and was a great kid horse. However, on this day, she went wild. She reared back a few times and dad dropped the reins. The old mare started running around the barn bucking, just like a bronc horse. She saw Jeannie and Steven and ran towards them. Steven pushed Jeannie inside the barn door, but before he could get inside the mare slammed Steven with her body against the barn. Steven crumbled to the dirt. Dad ran to Steven and wrapped him in his arms crying and yelling, "Steven, can you hear me? Steven, can you hear me?" Steven was limp in his arms and didn't reply. Dad ran and jumped in the truck. Carolyn and I were on our horses, I jumped from my horse and got in the back of the truck bed and told Carolyn to watch over Jeannie. I watched Dad as he drove to the hospital

giving Steven mouth to mouth. How we didn't get in a wreck on the way to the hospital is a miracle itself. Steven was life flighted to Primary Childrens hospital; he had a really bad sprained neck. The doctor told dad if he hadn't given Steven mouth to mouth, he would've died. After Stevens accident, mom never wanted him to ride a horse again. But it was one of dad's biggest fear that Steven wouldn't want to ride a horse again. Dad has had the same line of horses since he was 12 years old. He's now had that same line for 75 years. Two weeks before the accident happened, mom felt like we should learn CPR as a family. Dad said he had lived 54 years and had never needed to use CPR. Nonetheless, the next Monday for Family Home Evening Lee R. Beaumont came to our home with a dummy and taught all of us CPR. Sometimes we don't know why we are prompted to learn or do something, but God knows. If we let Him, He will help us every day. He hears every one of our prayers during times of joy as well as during times of sorrow, He is there to comfort us if we will let Him. He is mindful of us every day, as we are His greatest creation. ## WS STEPPING STONE B44

POLLED 3/4 SM 1/4 AN BD 2/5/2014 ASA 2937803

**SIRE: W/C LOCK DOWN 206Z**

**DAM: WS MS UPGRADE Z15**

This is one of the best purebred Simmental bulls I have ever seen. I am 86 years old and have seen as many bulls as anyone in the country. I am one of the fussiest bull buyers in America and a bull has to be about perfect for me to buy him. This fancy bull is so deep ribbed, square hipped, full of muscle and red meat. He is big topped, wide based, clean fronted, and clean sheathed. He is very sound on his feet and legs and carries himself well. He has a topnotch set of EPD's and is a HERD BULL SUPREME. Owned with Walsh Simmentals. Mike McDonald, Canadian Semen rights. Hetero Black, Homo Polled.

## GCC NICKELS N DIMES 124Z

POLLED PB SM

BD 3/1/2012

ASA 2659379

**SIRE: SVF STEEL FORCE S701 BY CNS DREAM ON****DAM: AJE/JF ANT JOYS ELEGANCE BY 3C MACHO**

Joys Elegance was Grand Champion in Denver in the Junior Show and matured into as picture perfect of a cow as she was show heifer. A true test for a great show heifer doesn't come in the show-ring, it comes in her ability to produce and transmit the same look and quality in her offspring. Joy's produced \$106,000 in progeny sales in one year on four head with one of the most consistent flushes ever produced at Griswold Cattle. Nickels N Dimes sired our Lot 4, \$18,000 bull in our '15 Bull Sale. He is big topped and complete with plenty of rib, dimension, style and power with a great look. This is the kind of bull to change a program with!

## SAV 654X RAINMAKER 7133

PB ANGUS

BD 2/23/2017

AAA 18911172

**SIRE: COLEMAN CHARLO 0256 BY OCC PAXTON****DAM: SAV BLACK CAP MAY 5853 BY SAV INTERNATIONAL**

Rainmaker is the complete package: calving-ease, performance, eye appeal, and structurally correct. I was looking for a heifer bull at Schaff's and when I saw him I could see he did a lot of things right. He had a strong top, deep body, square rump with a level tail head, impeccable hoof structure, and an attractive front third. We've been very pleased with his first set of calves and are keeping a son and many daughters for future breeding pieces. He PAPed and impressive 36 as a two-year old, which is important for high altitudes. If you want calving-ease without sacrificing performance, Rainmaker is your guy!
