CARRYING ON THE TRADITION

43rd Annual

Bull Sale

YI

*The Brand of Quality*

SATURDAY, March 12, 2016. 1:00 MST

## WELCOME

Dear Friends, Fellow Cattlemen and Most Valued Customers:

WELCOME and GREETINGS from our BEAUTIFUL MOUNTAINS, VALLEYS & DESERT to our 43rd ANNUAL BULL SALE. We have something for everyone in this sale and the quality is as good as you can find anyplace in America. These cattle have worked for us, they have worked for thousands of others, and they will work for you. They are backed by many generations of highly productive cow families THAT HAVE STOOD THE TEST OF TIME. We went to the Denver Stock Show and looked at all the bulls there and we liked a lot of our bulls better than what we saw. They are wintered on ½ grass and ½ alfalfa with very little grain, in big lots where they get lots of exercise.

These cattle are bred to survive and excel in a commercial cattleman's environment. We have bred a high-maternal cow herd that excels in longevity. Longevity to us means efficient, natural fleshing, maintenance-free, structurally correct females with sound feet and legs, tight udders with small teats and adequate milk, excellent fertility (last fall we only had 3% open cows) and productivity weaning off consistently heavy calves year after year. WE HAVE STACKED THESE COW FAMILIES WITH THIS KIND OF LONG TERM PRODUCTION TO PRODUCE AN ELITE COW HERD.

You can count on YARDLEY BULLS to deliver valuable pounds of growth & feed performance; low risk, highly proven genetics to add thickness, muscle & fleshing ability, with spectacular visual quality, structural soundness and eye appeal, consistently uniform calf crops with unmatched value and marketability. These bulls will produce high quality females that are productive, efficient, and profitable. These traits can best be analyzed by visual appraisal from the eyes of a stockman and assessed along with performance data. The right kind of profitable cattle never go out of style. THE BIG FEEDERS RECOGNIZE OUR CATTLE HAVE SUPERIOR GENETICS THAT MAKE THEM GAIN AND LOOK BETTER, AND THEY PAY A PREMIUM FOR CALVES Sired OUT OF OUR BULLS.

All my life I have bred performance and perfect conformation in these cattle. WE HAVE BEEN AI'ing FOR 48 YEARS. Many people have told us that all three of our breeds look alike. We analyze EPD's but the main selection tool that we have always used in individual performance is birth weights, weaning weights, and yearling weights, plus eye appealing good looks. It really upsets us that most of these breed associations and many breeders don't want to furnish this individual performance. They just want to go entirely on EPD's and carcass data as their only selection tool. This leaves a plain made, hard doing cow base that is hard to look at. It also opens the door for structural flaws and the dead end street of single trait selection.

Feb. 1st we got from 1 ft. to 18 inches of snow. We couldn't move without plowing a road with the tractor. It snowed our cattle in on the desert and we had to feed them for only the 3rd time in 32 years. We have had to bring our early calving cows home to calve. It's 45 miles. It went to 17 below for a few nights. We have a good snow pack in the mountains. We depend on this for irrigation water, so we are thankful for this. We are getting an awful inversion with fog and clouds out on the desert so it isn't melting the snow. With all of this severe weather we have had a harder time getting our catalog to the printers than any bull sale we have had in 43 years.

Family traditions are part of the way of ranch life in the West and farm life in the East. Fostering the passage of knowledge, honesty, integrity, and hard work between the generations who take part in this unique and wonderful way of life. This is a FAMILY ORGANIZATION. We are very grateful for the hard work of our family, and our dedicated hired men, Josue Garcia and Jose Guzman. I especially want to thank Jeannie for the catalog design, Steven for the footnotes, Michelle for the records and data, Rodney, Tawnya, Angela, and Steven for the excellent pictures. They have worked unceasingly around the clock to get this catalog out.

We pray daily for our great country that it can survive the dictatorial powers and unconstitutional executive orders of the Obama bunch. Obama tells us to be tolerant of the Muslims, but he is not tolerant at all of us Christians and is making it extremely hard for Chaplains and Christians in the armed forces. I hope we will be able to elect an honest, conservative Christian as President.

We must all band together, regardless of creed or religion, stand up and do everything in our power to protect our God-given freedoms, our core Christian values, the sanctity of marriage and our inspired Constitution which protects our rights. We need to be civil but undaunted in standing firm for what we believe.

We LOOK FORWARD TO HEARING FROM YOU AND SEEING YOU AT THE SALE. We appreciate your friendship and interest in our cattle. Our greatest desire is that these bulls will do a good job for you and sire some market topping calves. Please call if we can be of any assistance. Visitors are always welcome. GOD BLESS YOU AND GOD BLESS AMERICA.

Sincerely yours for a better cattle business.

**Gib**

GIB YARDLEY & FAMILY

P.O. BOX 288

Beaver, Utah 84713

Gib Yardley Home: 435-438-2424, Cell: 435-310-0041

Steven: 435-310-1725, Rodney Teichert: 801-824-8851, Jeannie: 435-421-1200

As cattle breeders we have a sacred stewardship to take care of and the land and cattle we are so blessed to manage. We are all in this together, and regardless of the onslaught of voices speaking out against ranchers, farmers, and producers we can set a higher example of true animal husbandry. We feel so blessed to be able to rub shoulders, work with, and sell cattle to such a high caliber of people. At the end of the day it is our family, friends and loved ones along with our own personal integrity that matter most. Everything else in life doesn't count for much if you don't have friends and strong relationships with one another. I think if we can always keep a long term, even an eternal perspective we will be much more likely to make good decisions that will have the most lasting influences for good on others. I am always amazed by how many people know and talk highly of my dad as I travel throughout the country. How grateful I am that he's always had high standards and treated people fairly in his business dealings.

We all, you and I, have some pioneer heritage in our blood. These brave men and women who charted courses and traveled through unknown territories, established the greatest country known to man, tamed and cultivated the unbroken prairies, hand dug ditches, cleared fields, built fences, and created communities deserve to have their undaunted legacy carried forward.

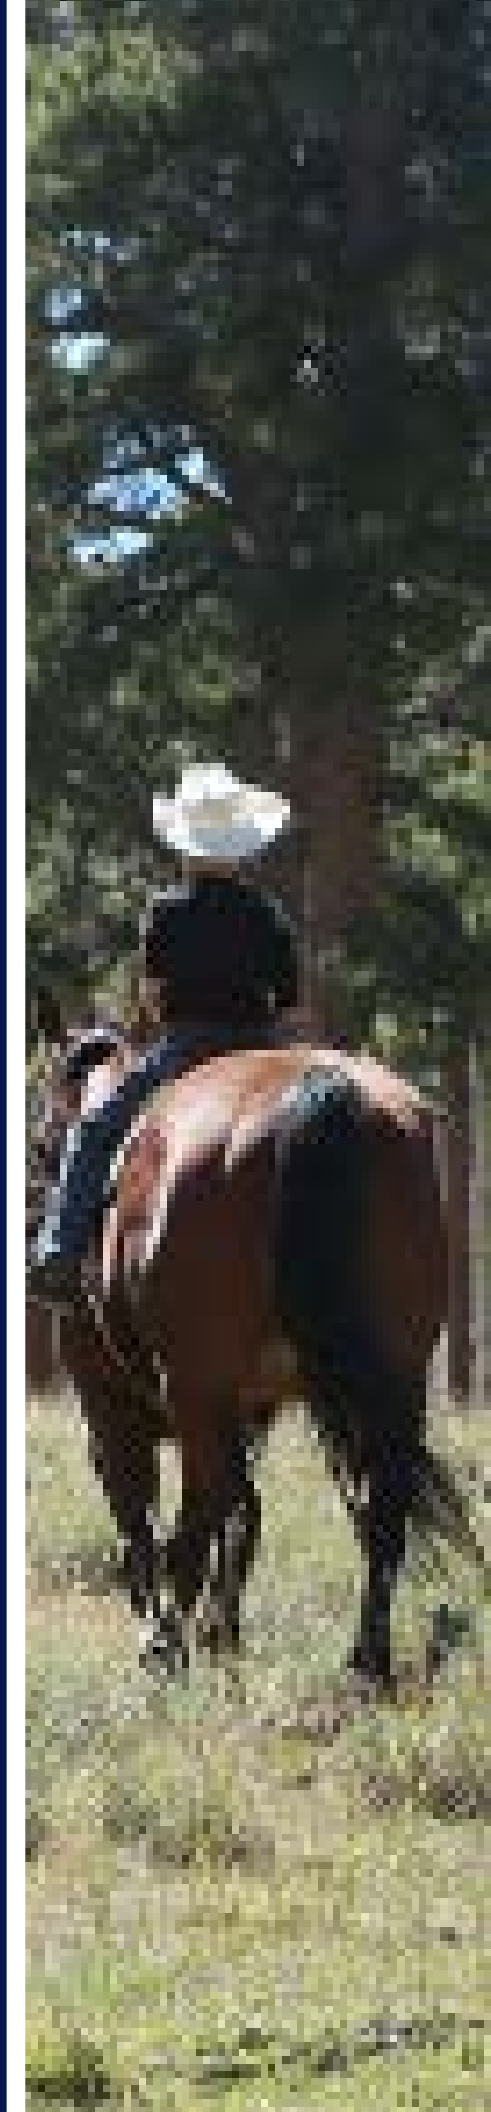

I love the poetic words from Paul Harvey from his speech, "So God Made a Farmer:"

God said, "I need somebody strong enough to clear trees and heave bails, yet gentle enough to tame lambs and wean pigs and tend the pink-combed pullets, who will stop his mower for an hour to splint the broken leg of a meadow lark. It had to be somebody who'd plow deep and straight and not cut corners. Somebody to seed, weed, feed, breed and rake and disc and plow and plant and tie the fleece and strain the milk and replenish the self-feeder and finish a hard week's work with a five-mile drive to church.

"Somebody who'd bale a family together with the soft strong bonds of sharing, who would laugh and then sigh, and then reply, with smiling eyes, when his son says he wants to spend his life 'doing what dad does.'" So God made a farmer.

The bulls represented in this offering and the cows and cow families backing them represent a lifetime of hard work and dedication to uncompromised standards of structure, quality and conformation. Thanks for your friendship and belief in our program.

Steven

## On the Cover

64 YEARS OF PROGRESS

In 1950 I was 17 years old, I was very excited to win the Grand Champion Market Steer at the South West Livestock Show in Cedar City, Utah. He was 17 months old and only weighed 960 lbs. There was no performance in those Herefords in those days. He sold for \$1.50 a lb.

### SALE AND RANCH STAFF

**Herd Records:** Michelle Smith, Minersville, UT  
**Sales Clerk:** Tawnya Yardley Teichert, Beaver, UT  
**Ranch Staff:** Josue Garcia, Jose Guzman,  
Steven Yardley, Rodney &  
Tawnya Teichert  
**Veterinarians:** Dr. Evan Yardley, Beaver, UT  
Dr. Mont Myers, Nephi, UT  
**Brand Inspector:** Thane Marshall  
**Pay Clerk:** Michelle Smith, Lori Y. Hoffman, Emily Y. Maxfield  
**AI Technician:** Zane Yardley  
**Barbeque:** Darren Oberg Family  
Cattle Video's: Chris Peterson

### TRANSPORTATION

Beaver is 200 miles away from Salt Lake City or Las Vegas, NV, on I-15. From Salt Lake, Sky West Airline commuter (Delta Airlines) serves Cedar City, which is 50 miles south of Beaver and also St George which is 100 miles south. Many times tickets are cheaper through these venues. Beaver has many excellent motels and restaurants, and an airstrip for private planes. You must call us to meet your plane as there is no taxi service.

### TRUCKING & DELIVERY

Please leave detailed information with the sales clerk about your trucking needs and arrangements. We will work with you to help find the best and most efficient means for hauling. We will guarantee to have your animals delivered anywhere within the United States for no more than \$300/head.

### ACCOMMODATIONS:

Request the Yardley Cattle Company special room rate. Please try to reserve rooms as far in advance as possible to guarantee room rate.

Days Inn .....435-438-7800  
North Interchange \$29  
Butch Cassidy Inn.....435-438-2438  
Downtown limited trailer parking \$55  
Quality Inn.....435-438-5426  
South Interchange \$60  
Comfort Inn.....435-438-6283  
South Interchange \$79

### RANCH AND SALE LOCATION

Once you arrive in Beaver, go to the Post Office corner on Main and Center Streets in town. Take Milford Highway 21, go west on Center 1 & 1/2 miles to the Yardley Black Cow/Calf sign, turn right and proceed north and west across the field to our sale barn. You will pass our house 1/4 mile north of the highway, but continue one more mile to the barn.

**UPON Leaving** Hwy 21, traveling north on the gravel road, except for our house and lot, the horses, cattle and land do not belong to us until you cross the cattle guard just below our sale barn.

### BARBECUE BEEF DINNER

We will begin to serve a complimentary barbecue dinner at 11:00 in the sale barn. Please join us!

## TERMS & CONDITIONS

**TERMS:** Terms of this sale are cash, or a good check, unless arrangements are made prior to the sale. Settlement to be made immediately at the conclusion of the sale before animals are loaded. The right of property title shall not pass until checks have cleared.

**BIDDING:** All animals will sell as single lots to the highest bidder. Any disputes or challenges regarding bids will be settled by the auctioneer whose decision will be final.

**RISK:** All animals are at the owner's risk prior to their sale and become the property of the buyer as soon as the animal is declared sold by the auctioneer at which time the buyer assumes all risk.

**HEALTH:** Every bull in this sale, to the best of our knowledge, is free of any disease and will be eligible for interstate transport. All bulls were Dextomax treated. They have been vaccinated twice for IBR, P13, BVD, BRSV, 8-way Blackleg, One Shot Pasturella, plus Enforce.

**ANNOUNCEMENTS:** Announcements from the auction block will take precedence over any printed matter, and any other announcements.

**TRUCKING:** All trucking is the responsibility of the buyer, but we will help make arrangements. Every effort will be made to minimize costs to the buyer. We can only get these bulls delivered to central points.

**GUARANTEE:** Every bull has been tested for Tric and semen evaluated by a licensed veterinarian. We will guarantee the bulls selling in this sale to be fertile at the time of sale. Several of the bulls in this sale are of "Herd Sire" quality. If the buyer chooses to have semen collected on a bull, Yardley Cattle Company can not guarantee that the semen will freeze. **KEEPING BULLS TILL MAY 15TH:** We can do this but encourage you to insure them as the risk is the responsibility of the buyer. \$3.00 per head per day will be charged until the bulls are picked up.

**LIABILITIES:** Although accidents at livestock sales seldom occur, everyone attending this sale does so at their own risk. The owners and employees of Yardley Cattle Company assume no liability, legal or otherwise, in the event of an accident, bodily injury, theft, act of God, errors in catalogs or omissions, or percentage verification. We try to keep the most accurate records possible and have bull tight fences, but on a rare occasion, accidents of breeding occur that we are not aware of or cannot control. We will do everything we can to determine the correct parentage, but cannot guarantee it.

**REGISTRATIONS:** REGISTRATION PAPERS WILL ONLY BE FURNISHED IF REQUESTED AT THE TIME OF SETTLEMENT AT THE CONCLUSION OF THE SALE OR WITHIN 3 WEEKS. If requested later, buyer must pay additional registration fees. Leave the name and address to which you would like your bulls transferred on your sale slip when you settle up. Please print so that it is legible.

**CONTRACT:** The above Terms and Conditions of this sale shall constitute a contract between buyer and seller and be equally binding on both. Animals that are resold following the sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by these Terms and Conditions.

## ABSENTEE BIDDING

If you are unable to attend the sale but would like to bid on the lots offered we encourage you to call prior to sale day. There are two ways to participate in the bidding if you are unable to attend the sale. Bids will be handled with the strictest of confidentiality.

### 1-Work with one of us to fill your order...

Due to the size of the offering it is impossible to picture every bull. There are many quality bulls that may not be highlighted that will fit your program. Feel free to call anytime prior to the sale. Sale days are crazy!! It is much easier for yourselves and for us if you are able to visit with us prior to the sale about certain lots. Gib: 435-310-0041, Jeannie: 435-421-1200, Steven: 435-310-1725

### 2-Bidding via DVAuctions....

Bid via [www.DVAuction.com](http://www.DVAuction.com). For more information contact DVAuction 402-316-5460

**3-Sale Day Phones.** These phones are only for bidding and we HIGHLY RECOMMEND PRIOR ARRANGEMENTS AS THE LINES MAY BE BUSY AND YOU MAY NOT BE ABLE TO GET THROUGH. If prior arrangements have been made we will accommodate you to the best of our ability.

Jeannie .....(435) 421-1200  
Steven .....(435) 310-1725  
Steven .....(801) 824-8851  
John Griswold.....(405) 780-3300

**PRE-SALE REGISTRATION FOR ATTENDING BIDDERS AND ABSENTEE BIDDERS.**

If you would like to register as an absentee bidder please call 435-421-1200. You may be required to list your bank telephone number and your drivers license number. All absentee buyers must be pre-registered. Any lots purchased by new absentee bidders must be paid for in full via wire-transfer on March 14th, 2016 prior to load-out or delivery. We appreciate your cooperation.

Before you can be approved you will need to provide a letter of reference from your lending institute. It must include the lenders letterhead, phone, address, contact person at the institution and a monetary range that can be used for purchases.

## THESE BULLS WILL SELL IN EVERYONES PRICE RANGE.

We cull bulls from branding up until the sale for structural soundness, quality, breeding soundness, and temperament. Not every bull is destined to sire calves. AS SEEDSTOCK PRODUCERS WE TAKE THE RESPONSIBILITY TO MARKET QUALITY BULLS SERIOUS. We realize that your success depends upon our breeding program and we strive to have quality from the first lot sold to the last bull to walk through the sale ring.

### First Year BREEDING GUARANTEE

All bulls selling for \$3000 or more will be covered 50% by **Yardley Cattle Co.** if they are injured during their first breeding season. Breeding season is defined as the 90-day period following the first turnout of the bulls.

50% of the value of the injured bull, minus one-half salvage value, will be given as credit in a future sale or toward a replacement bull if one is available. Salvage value, if any, will be split equally

between **Yardley Cattle Co.** and the buyer. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by October 1st. We will not replace a dead animal for any reason.

### Retaining 1/3 semen interest on all bulls!

SEMEN INTEREST: We are retaining at least 1/3 semen interest in all bulls selling. The new owners of the bulls will have full possession and all salvage value. If semen is sold we would retain one-third of all revenue. There will never be more than 2 or 3 bulls a year that we will want to collect.

PLEASE **brand** YOUR CATTLE WHEN YOU GET HOME!

Our bulls are not pampered and are not overly fat. They are developed on high roughage rations for comparison only and not for maximum gain. You will not be paying for over fleshing that will melt away as the breeding season progresses. By not force feeding these bulls, you can be assured they will be sound, athletic, and ready to service cows. They are grown in big lots where they get lots of exercise, so they can take the toughest ranges. These bulls are grown mostly on hay with a 50/50 alfalfa grass mix with less than 1% of their body weight in grain.

We have always concentrated on producing a functional, balanced, all purpose beef animal. One that is thick and moderate framed, not too big or too small, and that has a natural fleshing ability. If a cow has feed, I expect her to stay fat while raising a 700 lb. calf. We believe in a balance between performance, eye appeal, and maternal traits. Above all, we have eliminated the problem cattle. To achieve balance, ranchers need cattle that are not necessarily the tops in all traits, but they can't be weak in one single trait.

To whom it may concern:  
Traveling the country over the past 15 years Ultrasounding Cattle I have seen many types and breeds of cattle that vary greatly in carcass traits and phenotypic quality. Gib Yardley contacted me in the Fall about coming to Beaver, Utah and ultrasounding their yearling bulls. I was truly amazed with the amount of muscle and marbling the Yardley Bulls possess in a very sound functional package. It has always been a pleasure of mine to evaluate cattle of different breeds and what each of them offer to the Beef Industry. On March 12 Bull buyers from across the United States will have the opportunity to purchase genetics from Yardley Cattle Co, a breeding program that has stood the test of time and continues to excel in carcass quality and maternal traits. Whether you are a Purebred Seedstock Producer or a Commercial Rancher retaining ownership of your calves through finishing, Yardley Genetics will work for you. It has been proven that 1 square inch of Ribeye Area per hundred pounds of body weight on a Yearling Bull is average, as you evaluate the offering you will see that the Yardley Bulls will certainly exceed that while having high adjusted %IMF values. A 4% IMF score is equated to a low Choice Quality Grade on fed cattle, Bulls will generally sire fed calves that are 1% higher than their own %IMF adjusted value. Translation as you see many Bulls in the sale with %IMF values of 4% or greater they will transmit these high IMF values to their offspring while increasing Ribeye size lowering numerical Yield Grades. It is always my pleasure to travel to Utah and ultrasound bulls of superior structural soundness, quiet disposition, and work with a Great Family. As you evaluate the Bulls and make your purchases, buy with confidence, you are not only buying Great Bulls you are buying into a Program and the Yardley's will stand behind what they sell.  
Thanks  
Chad Gordon

# Pap Test

Brisket Disease of cattle is the result of right congestive heart failure, but is brought on specifically by effects of the lower oxygen pressures present when cattle are kept at high altitudes above 7,000 ft. elevation. The test is a measure of the pulmonary artery pressure (PAP). It is conducted by inserting a large gauge needle into the jugular vein, passing a fluid filled catheter through the needle and allowing it to flow down into the pulmonary artery that goes to the lungs.

Dr. Tim Holt of Colorado State University is the countries greatest authority on this disease and has tested many thousands of cattle. Dr. Holt recommends that bulls selected for cow herds running above 7,000 feet have PAP Scores of less than 41 if tested as yearlings. 41-45 is an acceptable score for animals tested over 16 months of age.

**IF YOU RUN BELOW 7,000 FEET ELEVATION, PAP SCORES SHOULD NOT BE CONSIDERED WHEN SELECTING BULLS.**

For many years I read the Yardley Cattle Co. advertisements in various cattle publications always thinking to myself "That's a long way to drive to buy bulls". Finally in 2009 I made the trip from Lafayette, CO to Beaver, UT and was not disappointed in the bulls being offered for sale. At that sale in 2009 I intended to purchase four to six Angus bulls. I came home with six Sim/Angus bulls and two Angus bulls. Over the next three years I purchased 60 Angus, Sim/Angus and Simmental bulls from the Yardley's to be used in the Culver Cattle breeding program. The Yardley bulls worked extremely well in the Culver herd that resided year round above 8,000 feet elevation. The Simmental and Sim/Angus bulls increased our wean weights by 30 pounds and left us with an outstanding set of replacement females. The Angus bulls made great contributions to our breeding program as well adding conformation correctness, feed efficiency and natural fleshing ability. If you live at sea level or in the mountains, need to buy one bull or a truck load I'm confident you can fill your needs at the 2016 Yardley Cattle Co. Bull Sale. I would enjoy discussing my experiences with Yardley Cattle Co. bulls.

## WHY USE YARDLEY BULLS

1. THE BIG FEEDERS PAY A PREMIUM FOR CALVES SIRED BY OUR BULLS BECAUSE THEY ARE THE BEST GAINERS AND THEY HAVE THE LOOK, EYE APPEAL AND UNIFORM PHENOTYPE.
2. Their daughters will be the most productive cows you've owned.
3. Their calves will weigh 25 to 100 lbs more at weaning.
4. These bulls are wintered in big lots on half grass/alfalfa and only 1% grain.
5. They are born unassisted on the range and walk 25 miles to and from the summer range that goes to 10,200 ft. elevation, so they have to be structurally correct.
6. You don't have to baby and pamper them.
7. Our cows winter on desert winter range without hay. They have natural fleshing ability to stay fat on grass and take care of themselves.
8. All bulls are performance tested and backed by our first year breeding guarantee.
9. They have proven themselves to adapt to all environments and have sold into 30 states, Canada and Mexico.
10. Simmental and Simmental crosses are some of the most sought after cattle by order buyers, feedlots and for replacement females.
11. YARDLEY BULLS ARE BRED WITH THE COMMERCIAL CATTLEMEN IN MIND.
12. You are buying from a family that is honest, we will treat you fairly.
13. GIB YARDLEY IS A MASTER CATTLE BREEDER. He will be 83 years old on March 15th. He has Al'd for 48 years and has produced one of America's greatest cow herds. He has spent his life breeding this herd of cattle and raising a wonderful family.
14. THESE ARE NOT ORDINARY CATTLE. THEY HAVE MORE THICKNESS, DEPTH, MUSCLEING, FLESHING ABILITY, PERFORMANCE, & STRUCTURAL CORRECTNESS IN A MODERATE SIZED PACKAGE.
15. Cross breeding pays. You can't afford not to.

"Today 90% of all cattle are bought and sold based on phenotype" Jarold Callahan, General Manager of Express Ranches, Yukon, OK during his judging commentary at the 2014 National Western Angus Bull Show.

Producing calves with more quality, performance, structural soundness and eye appeal are one of the major advantages of using Yardley bred bulls

Yardley North Slope C295 combines shape, style, depth and dimension together in a stylish fronted, showy package and an equally impressive performance record. His impeccably uddered, donor dam is the epitome of perfection in a purebred package. Her calves have weaned off at an impressive 743# average. Last year's bull calf was set to be the leadoff bull of our '15 offering. Unfortunately, He was injured prior to the sale. We Al'd several top cows to him. Her heifer calf was the pick of the herd for Birdy; the bottom line is, this cow can flat out produce. We loved C295's sire, Northern Octane and were contending bidder on this \$25,500 feature lot in Kappes's '14 sale.

Yardley Four Corners C464 is the culmination in quality of many of the most elite individuals produced at Yardley Cattle Company. His dam, Z44 is a designer High Regard daughter out of the best daughter of P153, the perfect uddered, cool fronted, blaze faced producer of many feature lots including last year's \$16,000 sale favorite selected by Carsten Simmentals of Hotchkiss CO. C464's sire, Utah is growing daily in popularity and demand with astute cattlemen and showmen across the nation realizing his ability to transmit the added dimension, and style. C464 is a bull to take home sale day.

Here's a dandy son of Picasso, one of our favorite Meyer 734 sons. C389 is long bodied, big topped, massive hipped and moderate. He is a maternal brother to Yardley Canyon, who we used for several years as a herd sire. Many of his calves are in this offering. Their powerhouse dam has averaged 674# on seven head of calves. Her previous two bull calves sold for \$5,500 and \$5,750 respectively one of them going to long-time customer and friend Todd Marshall of Minersville Utah.			YW	85.1

**Calving heifers.** We calve from 100-200 heifers every year and we always watch them closely. We always try to breed them to an easy calving bull. However, I don't care how much of a calving ease bull you buy, if you want a live calf you have got to get up at 2:00 in the morning. We check our heifers every 3 hours. IF YOU GET THEM TO FAT OR TO THIN YOU ARE ALSO GOING TO HAVE TROUBLES. We like to not feed them

over 1/3 alfalfa and they need some exercise. They need a little protein or the calves will be born weak and are a lot more susceptible to scours. But too much protein makes the calves bigger. All females should be watched closely during calving. You can't predict whether any virgin bull will be a heifer bull until he's sired a crop of calves. THE BEST WAY TO AVOID CALVING PROBLEMS IS TO EXPECT YOU WILL HAVE THEM.

Stonewall is a full brother to last year's \$18,000 lead off Angus, Cornerstone, with the winning bid going to Lee Stremsterfer of IL and John Griswold of OK. C324 carries on the family tradition of length, depth, and eye appeal in a rock solid, performance package. His express shape and muscle definition are highlighted by his 731# WW. His performance oriented donor dam has averaged 713# on seven calves and is a full sister to the dam of our herd sires Zion and Embark. She will continue to play a dominating influence in the progression of Yardley Angus genetics. Royal Jet has proven himself as a female maker with exceptional depth, capacity, udder quality and structural soundness in a moderate easy fleshing package. Stonewall is sure to do the same.

We were super excited to see the result of this mating, and were ecstatic with the result. C316 combines a light birthweight with a scale mashing weaning weight. Which is not a surprise when you consider that his excellent, deep bodied dam has averaged 764# on eight calves; rewarding her with the highest weaning weight average of any Angus on the ranch. Her calves are as impressive on the hoof as they are on the scale. She produced \$9,000 Black Brilliance in '14 purchased by loyal customer Ronnie Smith of Texas. Her previous four calves have averaged nearly \$7,700.

Three phenomenal flush brothers sell back to back. If you sell by the pound they will increase your bottom dollar. They lead our Angus division in terms of real growth and performance with an intriguing set of numbers as the first, second, and fifth high gainers in our Angus division. Averaging a mere 81# at birth, an impressive 745# at weaning and a massive 1,448# at yearling with a 3.9# WPD! They are peas in a pod in terms of phenotype with abundant depth, massive width, and powerful butt ends. Their beautiful uddered, performance packed, donor dam has averaged 694# on eight calves, a maternal brother topped our Angus division at \$9,100 in '09. Her stellar performance record coupled with her ability to transmit perfect phenotype with strong maternal backing have concreted her place in our donor program. Their sire, the #1 Genex semen revenue bull, SAV Resource has taken the stage as the most popular, powerful, proven performance sire in the Angus breed; these fabulous sons with intriguing carcass data are sure to carry your genetic base forward in style.

K A V Blackcap Bessie 4023 by Outback

Here's another stylish calf out of herd matron and donor U106. He is a full sibling to \$11,900 My Lil' Birdy. He has the same style, movement, functionality and dimension that made his older sister so desirable. As referenced in the previous comment U106 has an unrivaled track record for producing the right type and kind of calves to have a major impact your herd improvement and performance. Bulls like C299 are one of the cheapest investments you will make on your replacement females.

C355 averaged nearly 700#. Royal Jet consistently stamps his offspring with depth, muscle and eye appeal putting pounds of performance in the right package. His TC Freedom dam is still going strong at thirteen years old. Richard Hutchings showed us TC Freedom in Denver and we thought he was the best Angus bull we had seen that year. We decided to go in together and try to buy him. Richard ran him to \$53,000, and he sold for \$54,000.

C357's maternal grand dam is one of the prettiest, moderate Duff New Edition daughters on our ranch. She has as much rib and shear capacity as any cow her size, with nice little teats and perfect leg and foot structure. She's only about a 5.5 frame cow but weaned a \$9,000 bull calf that weighed over 800#. We could write a book about all of the tremendous females and cow families that stem from her cornerstone dam C72.

R103 has always been one of my favorite Angus females. We absolutely love the OCC Doctor cattle, our herd sire Doc Skipper was one of them. We have several daughters of his that are still in production, that are all exceptionally easy fleshing, big bodied, broody females with adequate milk and nice udders. She has averaged 689# at weaning on nine calves.

If you want to talk about a bull stacked with multigenerational flawless females, C373 would be one to look at. His dam is a picture of depth, width, style and dimension in a moderate broody package. She always stays fat and her calves always command a premium, with her last bull calf selling for \$5,750. Her incredible maternal sister is in our donor program, S19 has three embryo calves in this sale. Their maternal line traces back to cornerstone matron C72, who has probably had more influence on our Angus cow than any single cow.

This is one of the very best Angus bulls we have ever raised or see. You could write a book about Yardley Mountain and his perfect profile. Seldom do you see this much muscle and meat coupled with width depth and dimension in a PB Angus package. With huge hoof, bone and a powerful pedigree, his attributes culminate to make him a spectacle of awe and wonder. When we saw his sire, Sinclair Mountain Pass, we were amazed by how deep and soft made he was and his width of body throughout. The sky is the limit with Yardley Mountain.

I don't know if you could put any more depth into an animal than C474 possesses. He's the type of bull that made Billy the Kid's offspring so marketable. If you are wanting to make a set of tremendous, easy fleshing females that will wean big calves year in and year out and stay fat doing it C474 possesses all of the necessary traits to do it. His maternal line traces back to herd matron J200. This old cow weaned 12 calves that weighed nearly 700#. Her last bull calf was purchased by astute cattleman Jim Frost for \$8,500.

Really deep, moderate, well made package, Just a titch of Maine in him, cool front and hair. C262's dam's \$7,600 maternal grand dam was selected as a donor female by Dunn Rite Stock and Stables of Alberta Canada where she has done a tremendous job. C262 has the necessary credentials to produce a beautiful set of correct, moderate made, easy keeping heifers that will be an asset to your ranch for years to come.			ADJ Rib Fat	0.08

## Tribute to Denise's Father,

Wendell Romulus Evans, Aug 20, 1932-Jan 25, 2016

Most of all dad loved mom, even though some of the things he did tried her patience, they treated each other with love. Everyday he'd take her on a ride exploring in the car. We teased them that they never missed a funeral, if it was anyone they knew even distantly they'd go. He and mom were such great support to us, they came often to visit and were there to encourage us in every way they could. They let us know how much they loved us and how important it was that we live honestly and with compassion and faith.

Dad loved music and it was always a special treat when he'd play songs on the harmonica or the piano to entertain us, we enjoyed it as much as he did and it made many fun, sweet memories.

He always had an assortment of animals, chickens, a donkey, goats, - all just for his enjoyment. Each morning they'd noisily let him know they were waiting for the treats he brought them, old twinkies or cookies, they wouldn't even pay attention to bread.

Dad was a school teacher and enjoyed it to the point that he tried to talk all of his children and grandchildren into teaching. He thought it was the ultimate career.

We were so blessed to be a part of his life, he left us a rich heritage and an example of blessing others lives through kindness. I love you Dad, I'm so proud to be your daughter and thankful my children and grandchildren have been strengthened and blessed by your example. You make us want to live worthy to be with you eternally. Love Denise

**Miss Yardley**

C470 is one of our top gainers. His 747# WW and 1,434# YW would be impressive under any circumstances, but when you consider that he did this while he was an orphan, it's astounding. Jose found him on our desert winter range with no cow around, and when he went back and still couldn't find a cow he brought him home, but never found a cow to put him on. He apparently became very proficient at stealing milk. We were amazed when we gathered in the fall with how well he had done. To make a long story short, we don't know his parentage other than that he is high Quality Yardley genetics through and through!

THE BRAND OF QUALITY

Gib & Denise

Angela & Steve Barton

We welcomed a new grand baby to Angela & Steve Barton on July 15, 2015. Charley Barton weighing 6.2 lbs.

We are anxiously awaiting spring and all the changes that are coming with it:

Jessica Smith comes home from serving her Mission for the Church of Jesus Christ of Latter Day Saints in April from Honolulu, Hawaii.

This year we are expecting 3 new grandbabies (Emily, Leslie, and Jeannie), 4 new colts, and hundreds of baby calves!

Emily & Weston Maxfield

Mark & Michelle Smith Family

"When God wants a great work done in the world or a great wrong righted, he goes about it in a very unusual way. He doesn't stir up his earthquakes or send forth his thunderbolts. Instead, he has a helpless baby born, perhaps in a simple home. And then God puts the idea into the mother's heart, and she puts it into the baby's mind. And then God waits. The greatest forces in the world are not the earthquakes and the thunderbolts. The greatest forces in the world are babies."

# YARDLEY High Regard

From the Purple to the Pasture

**PB SIMMENTAL ASA # 2522822**

Sire: Y1 Impressive by Dinero x Power Surge

Dam: Miss Yardley T68 by Pinion

Y1 High Regard was the \$30,000 high selling bull in our 2010 sale to John Goken and Dale Werning Families of SD. Sired by Yardley Impressive x Y1 Pinion. The calves sired by High Regard are stout, cool made, and consistent. He is siring sale toppers across the country demanding as much as \$100,000. Another daughter was just crowned Grand Champion at the prestigious and tough Simmental Junior Nationals, the American Royal and Denver. High Regard hails from generations of good uddered, broody made females. They are real world cattle that will work in the show ring and we know will work in the pasture. As a complete outcross to Dream On he is the go to sire for functional, consistent quality.

*Mark Sweet*

# YARDLEY

## Cattle Company Sire Lineup

Three separate breeds, three individual herds of cattle, one common goal. Our focus in all three breeds is to produce cattle with rib shape, dimension, solid tops, easy fleshing, and be structurally sound and functional. We will continue to focus on solid cow families combined with powerful herd sires. Semen Available on all sires.

### GCF Billy the Kid

**1/2 SIMM 1/2 ANGUS REG # 2548887**

Sire: MCC Cupid by OCC Legend

Dam: GCF Miss Reflection by CNS Dream On

Billy the Kid did not disappoint. He has sired a group of calves second to none. They are big bodied, stout made, and there just isn't any throw aways in them. They exhibit a soft made, easy doing look that is popular in everyone's cow base. Billy the Kid was a member of Grindstone Creek Farms Pen of Three in Denver 2011. He has quickly earned a place in our Herd sire pen. You're going to fall in love with his daughters at our Focus on the Female sale.

### Y1 Whirl of a Dream W361

**PB SIMMENTAL REG # 2533644**

Sire: CNS Dream ON by Nichols Legacy

Dam: Miss Yardley B75 by Whirlaway

Whirl of a dream was the pick of our Simmental bull calves five years ago. He's big topped, large scrotaled, with bone and great muscle shape. His dam B75, has been a top producer for us. She raised this calf at 17 years old. He weaned off at 712# with no creep and she was fat when she came home. A wise cattleman once told me if you love the cow, breed one of her sons and you'll replicate her. There is performance with power in this pedigree. We couldn't be more pleased with the daughters he's left us. They are functional, big ribbed, thick made cattle with performance. A couple years ago his calves averaged higher than any other sire group, averaging over \$7,000. Semen: \$30

### Yardley Utah

**3/4 SIMMENTAL 1/4 ANGUS REG # 2641894**

Sire: GCC Hard as Steel

Dam: Miss Yardley T170 by Dream On x Corrector

We consider this bull one of the best, if not the very best we have ever raised. I am as critical a bull buyer as there is in the country and there isn't a single thing I don't like about Utah. He has perfect phenotype every place you look at him. I don't like high tailed cattle. I want them square over the tail head and he is. We consider his dam to be the perfect built, moderate sized cow and as pretty and good as any cow we own. His beautifully designed maternal grand dam was a stellar \$7,700 feature in our sale that sold to Greg Kroupa of White Lake, SD. Utah has experienced great success in our program and at Wernings in Emery SD with several calves selling for over \$15,000. A daughter of his was crowned Champion at the West Virginia State Fair. Utah recently sired Werning's high-selling bull bringing an impressive \$87,500. Owned with Griswold Cattle Company and Trennepohls. Semen: \$35

Miss Yardley T170

## GCC Hard As Steel 144w

**1/2 SIMMENTAL 1/2 ANGUS ASA REG # 2511031**

Sire: SVF Steel Force S701

Dam: OCC Jaunada 898L by OCC Homer

I had the opportunity to go to the Grass to Grid Sale, before I married John. I fell in love with Hard As Steel before I was real sure I was in love with John! I circled his lot number, put a star next to his name, and wrote love this bull in my footnotes. With a 70# BW, 15.67 REA, and a 40.5 yearling scrotal he was one you could like off of paper but he got better after a visual analysis. He is a female maker that is huge bodied with fleshing ability and style. He has sired many of our top-sellers and herd sires including Yardley Utah and Yardley Powerhouse. Owned with Curt Suehner, and Griswold Cattle Company. His mother has been in ET at Griswolds, she is one of the best cows that they purchased from Tim Ohlde. Semen: \$30

Joy's Elegance

## GCC Nickels n Dimes

**PB SIMMENTAL ASA REG # 2659379**

Sire: SVF Steel Force by CNS Dream On

Dam: AJE/JF Aunt Joys Elegance by 3C Macho

Joy's Elegance was Grand Champion in Denver in the Junior show and matured into as picture perfect of a cow as she was show heifer. A true test of a great show heifer doesn't come in the showing, it comes in her ability to produce and transmit the same look and quality in her offspring. Joy's produced \$106,000 in progeny sales this past year on four head with one of the most consistent flushes ever produced at Griswold Cattle. The two yearling heifers produced are proving to be as competitive in the show ring as their great dam. Nickels n' Dimes sired our Lot 4 \$18,000 bull in our 15' bull sale. He is big topped and complete with plenty of rib, dimension, style and power with a killer look. This is the kind of bull to change a program with! Semen: \$30

Miss Yardley W151

## Yardley Ensign Z394

**3/4 SIMMENTAL 1/4 ANGUS ASA REG # 2690517**

Sire: STF Shocking Dream by Dream On

Dam: Miss Yardley W151 by 3D x Treasure x N130

Great cattle it seems are built by great cow families and the E119 cow family has been one of the most profitable we have ever owned. It doesn't matter the generation E119 falls back through on the pedigree chart, they are destined to be good. N130 is a daughter of K114, E119's best daughter and they are both donors. All three of these great females have produced sale toppers, the quality doesn't get any better. Ensign is a bull that stuck out as soon as you walked in the pen. With plenty of rib, bone and power along with the look it takes to make class winners and sale toppers. He's the real deal and we couldn't be more pleased with his offspring! Semen: \$30

## Yardley Chrome Y256

**POLLED PB SIMMENTAL ASA REG #2629556**

Sire: Flying V Cut Above

Dam: Miss Yardley W122 by 3C Macho x Bonanza x Whirlaway

Longevity is essential to profitability in a cow base. Chrome's, beautiful bodied, perfect uddered, maternal grand dam effectively raised sixteen calves; her powerful dam raised fourteen calves-longevity second to none! Sired by Cut Above, Chrome combines calving ease with efficiency and style and has matured into a great muscled, huge hiped herd sire that is an outcross to Dream On. He has raised several stylish calving ease bulls that have sold for \$6,500 and over. He adds style, extra hip and a smooth shoulder to his offspring with plenty of blazed faces in the bunch. He has averaged 80# BWs on fifty-five calves. Semen: \$25

## W/C Fully Loaded 654B

**¾ SM ¼ AN ASA REG# 2900326**

Sire: Remington Lock N Load

Dam: Miss Werning 6545 by Really Windy 1205

When I had the opportunity to walk through the '15 Werning offering Fully Loaded 654B was the stand out higher percentage bull to sell. He is bold in his design, loaded with meat and muscle, and sound as a cat on his feet and legs. He is a highly productive son of the curb bending \$47,000 Lock N Load. He had an 87# BW, 850# WW, 1,426# YW, 38 Scrotal. His carcass data was equally impressive. The combination of phenotype, performance and carcass combine to make Fully Loaded a must have package.

Semen: \$30

## Yardley Wah Wah Z303

**¾ SIMMENTAL ¼ ANGUS REG # 2690482**

Sire: Billy the Kid

Dam: Miss Yardley U154 by Ranchhand x E119

Wah Wah was the pick of our herd for our next herd sire in our bull battery. With his flawless phenotype that combines a massive hind quarter with a big top, deep chest, smooth shoulder, big hoof and ideal leg set in a unique blend of power and softness. He has an equally impressive set of weights with a huge spread from 78# at birth to 764# at weaning. He sired the \$14,000 Yardley Red Hawk selling to Ronnie Smith of Texas. Wah Wah's quiet disposition and awesome pedigree trace back to our herd matriarch and donor E119, is filled with equally impressive herd matrons and make Wah Wah the complete package and impeccable addition to our bull battery. Semen: \$30

## ZEIS Real Steel A23

**½ SIMMENTAL ½ ANGUS REG # 2770310**

Sire: SVF Steel Force

Dam: BF GCC 5918 by OCC Legend

This fancy ½ blood was Grand Champion Simmental bull wherever shown at the Nebraska State Fair, Iowa State Fair, The American Royal, Kansas City, North American in Louisville, and the greatest of all stock shows the National Western in Denver. He's about perfect in his phenotype. My good friend Stan Sears from California and I were watching them judge the show and when he won we decided to buy him. He is by Steel Force out of an OCC Legend daughter. He had a 64# birth weight so we bred him to quite a few heifers. He really held his flesh well after we turned him out to breed. Owned with Stan Sears. Semen: \$35

## KCC1 PINNACLE 118Z

**ANGUS REG # 16996619**

Sire: WAGR Driver

Dam: CNS Tiara P405 by RCC Headliner M6051

Pinnacle was the lead off bull in the Grand Champion pen of three high % Simmental bulls in Denver. We really have some fancy calves by him. He is sired by WAGR Driver and out of a Power Drive cow. He had an 87# BW and 775# WW. You'll like his calves. He has done us a great job!

## Yardley Zion X288

**ANGUS REG # 17036377**

Sire: SCC Apache Brave

Dam: Miss Yardley S504 by SAF Bando 5175

S504 has been one of our very top producers, she does not miss. Zion was a bull that stood out as a top individual from the time we weaned. He had as much rib, rear quarter, power and overall mass as any bull in the pen. We just weaned his first calf crop, they have performance and eye appeal. He was severely hurt as a yearling, we babied him along for a solid year and he recovered. He is as pretty a mature bull as you could picture with the pedigree and performance to stand out from the crowd.

Semen: \$30

## SCC Apache Brave Deceased

**ANGUS REG # 15759398**

Sire: OCC Legend 616L

Dam: Y Annie Coed 928 (Krugerrand granddaughter)

Apache Brave is going to go down as one of the greatest sires of Yardley Cattle Co. He is an easy calving sire that produces cattle that have look and style. Grass fat cattle are what we need to breed. He always maintained his flesh while breeding cows and he wasn't a bull that needed to be primed and pampered. Apache was a moderator that kept performance and bred depth and rib into his progeny. His heifers are loaded with style and are always some of the favorites in our fall sale every year. Owned with Matt Sherwood.

## Yardley Royal Jet

**ANGUS ASA REG #16704437**

Sire: OCC Jet Stream

Dam: Miss Yardley R192 by SC Stockman

Royal Jet is the type of bull that defines where we are taking our program. Soft made cattle that carry performance, thickness, fleshing ability, and style. Look at the performance this bull carries coupled with a perfect phenotype. This is as good as Angus bull as you will find anywhere. We have used him to clean up our Angus heifers, cows, and crossed him up on Simmentals and Maines. The results are the same: sound made functional cattle with eye appeal and performance. He sired the \$18,000 Yardley Cornerstone from last year's sale and a full brother selling this year. Royal Jet is the type of bull that will add belly, rib, and doability, without taking pounds away from your bottom line. Semen: \$35

## SAV Patron

**ANGUS REG# 17921492**

Sire: SAV Pioneer 7301

Dam: SAV Emblynette 7566 by SAV Net Worth

This great \$20,000 bull is bred to make a lasting contribution in all traits of magnitude and backed by one of the strongest and most proven maternal generations of elite pathfinders and has a track record second to none. She has 13 daughters featured in the SAV herd and 39 progeny featured in past SAV sales. She is the favorite cow of Bob Watkins, Kelly Schaff's right hand man. Her progeny include some of the heaviest 205 day weights in several of their sales. PATRON HAS HELD HIS FLESH AND STAYED FATTER THAN ABOUT ANY YEARLING BULL WE HAVE RAISED. His prolific Pathfinder granddam is still going strong and raising calves at 18 years of age. I picked this bull as one of the top bulls that I liked in the famous Schaff Angus Valley Sale. Semen: \$35

## Yardley Top Notch C371

**ANGUS REG # 3080653**

Sire: Sandeen Upper Class

Dam: HSF Victoria P30 by Nichols Blk Destiny

Top Notch is the exciting result of \$55,000 Sandeen Upper Class crossed on HSF Victoria P30, who has had over \$350,000 in offspring sales and reigns as the leading donor for Hecksels of Minnesota, and the producer of another successful donor phenomena, HSF Baby Doll W959. Sandeen Upper Class was valued at \$55,000 for half interest, and comes from a cow family that is second to none. His dam, breed legacy, Donna 7386 commanded an impressive \$140,000 selling to astute cattleman Nick Sloup of Nebraska. His powerhouse maternal grand dam brought an astounding \$100,000. Top Notch is loaded with exceptional mass and performance in a moderate made easy-keeping package. His width and massive rib shape afford him the ability to moderate cattle without moderating weaning weight. Top Notch is a breed changer. SEMEN \$40

## Yardley High Roller

**ANGUS ASA REG #3074969**

Sire: Yardley High Regard

Dam: Miss Yardley T164 by S/C Stockman 365

T164 is a beautiful designed, perfect uddered, big bodied, no-miss Angus herd matron that has produced several top notch calves including the pick of our '14 calf crop, Yardley Aspen. She flat out works with whatever we cross her to. High Roller is the result of mating her to Hi Regard who has produced sale toppers and purple ribbon winners across the Nation including Griswold's high selling heifer at \$54,000! You'll love the amount of depth, dimension and real world performance of High Roller. He's sure to produce high dollar offspring come spring. SEMEN \$30

## Yardley Summit C351

**ANGUS REG # 18372546**

Sire: Sinclair Mountain Pass

Dam: Miss Yardley Y179 by TC Freedom 104

Yardley Summit is the result of a life time of breeding the best to the best. The University of Wyoming judging team just visited our ranch at Christmas time. They were amazed by the amount of width, depth, bone and style of this purebred wonder. Caleb Boardman, their coach, commented he was one of the best Angus bulls he had encountered. His dam is one of the prettiest made, stylish females—the kind you could build a whole herd around. She produced \$5,750 feature Cashmere that sold to Rick Dunson of Ohio, and is a maternal sister to Yardley Cover Girl, selected by our good friend Kasey Rowser of Wellsville Utah for \$4,500. Let Yardley Summit help take your herd quality to new heights. SEMEN \$30

Thank you for your friendship and  
your business, it means the world!

## THSF **Lover Boy B33**

Dam of Lover Boy, 2009 Grand Champion American Royal

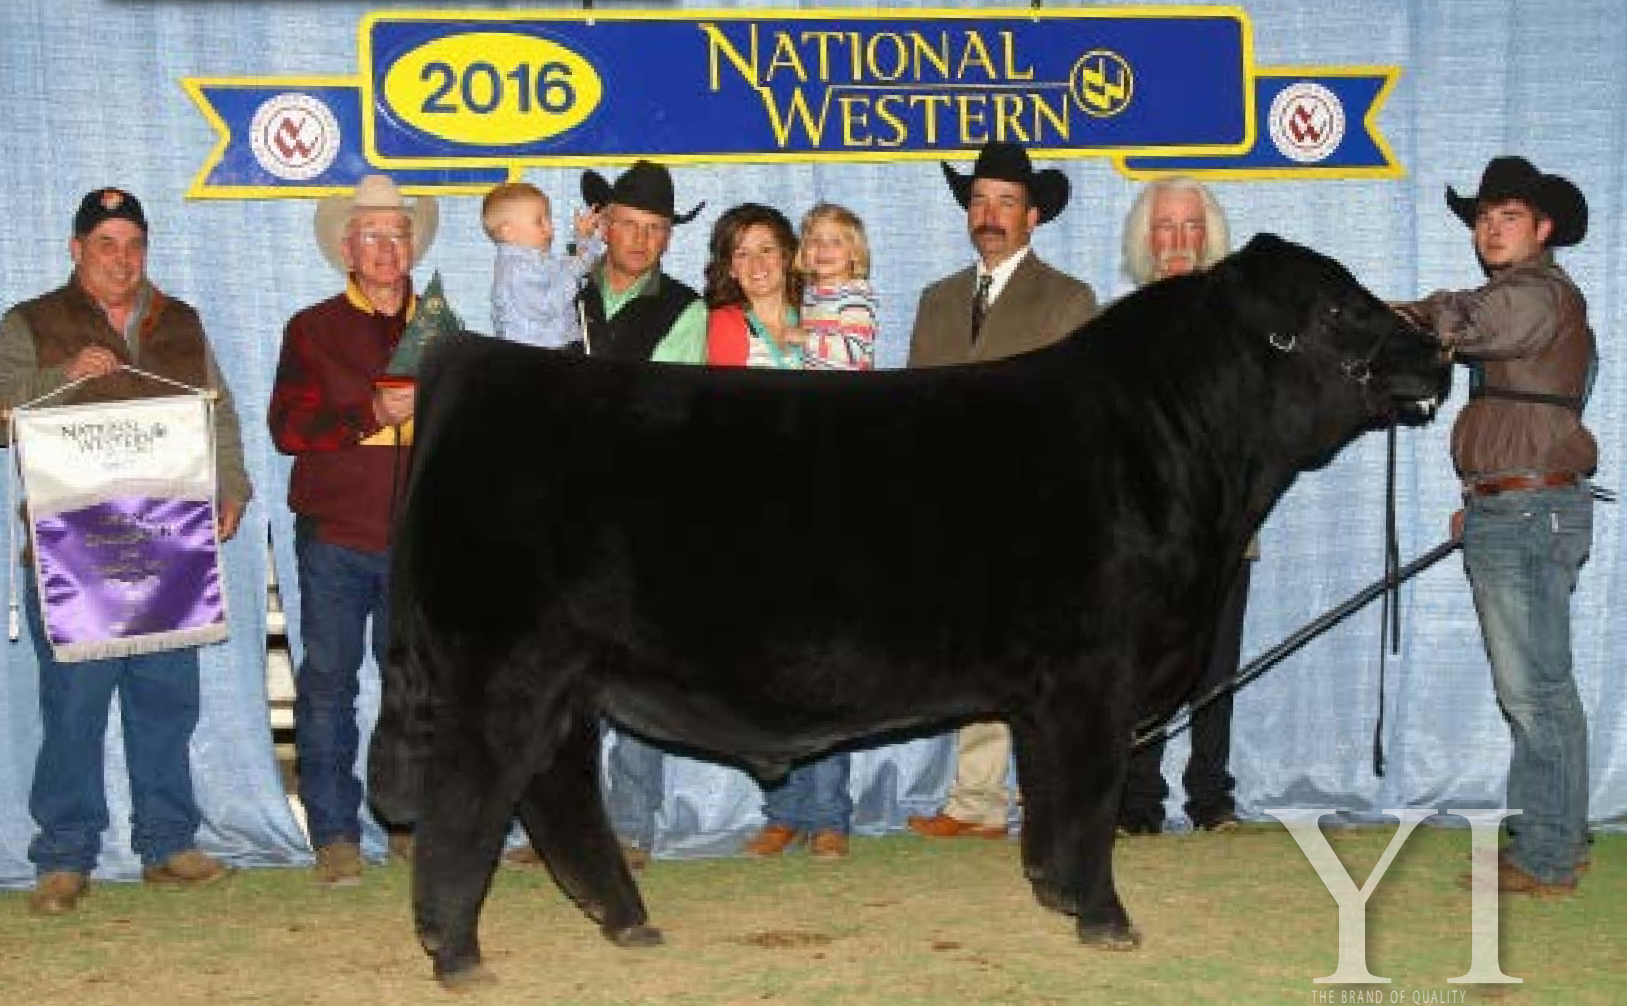

We went to the Denver Stockshow and wanted to buy the Simmental Purebred we liked the best. We looked at about all of them there. There are so many bulls of all breeds that have bad feet and a lot of people aren't paying any attention to it. Their hooves are either too small or many of them have outside back toes that curl under or else they toe out on front. We have tried to watch this very closely because our cows have to walk and trail the year around as many of yours do.

We finally found one at the last minute. He looked good every place you looked at him with no holes in him and the best feet we had seen on any bull in the show. We had to catch a plane to go home and I gave them a check for \$25,000 for him about 3 or 4 minutes before he was to show and left for the airport. HE WAS PICKED GRAND CHAMPION SIMMENTAL OF THE SHOW. Jeannie and John were there to see him and get in the picture. Jeannie called us and I was the most excited I had been for 10 years. You can't help but love him because he has perfect conformation and is just the right size.
