

YARDLEY CATTLE CO. 52ND ANNUAL BULL SALE

SATURDAY
MARCH 8TH 2025
BEAVER, UT 1PM MST

WELCOME

Dear Friends, Fellow Cattlemen, and Valued Customers:

From the mountain valleys of Southern Utah, we welcome you to our 52nd annual bull sale. What an exciting time to be alive and involved in the cattle industry as we watch cattle prices soar to new heights almost daily! HOW BLESSED WE ARE TO LIVE IN THIS GREAT LAND OF AMERICA, FOR THE BRAVE MEN AND WOMEN WHO TAMED THE WILDERNESS AND PAVED THE WAY FOR OUR SUCCESS. We are so grateful for our pioneer heritage and the legacy of faith, determination, and tenacity they left for us. Greatness is built on greatness. We owe a huge debt of gratitude and appreciation for the selfless sacrifices they made for us, their benefactors.

What an awe-inspiring period we live in with the advancement of technology and communication that greatly blesses and enhances our lives. The technology and information at our fingertips cannot even be contained in the Library of Congress. With so much available information, screening pertinent, factual data from fallacies is a must. In all the complexities, we can lose sight of the importance of sticking to the basics. While we are firm believers in utilizing new technologies, the fundamental principles of good, functional, structurally sound, easy-fleshing, low-maintenance cattle remain the same.

The bulls in this offering represent a lifetime of breeding the best to the best with 56 years of Aling and deep culling, resulting in problem-free cattle developed for range conditions and performance. No derivative number on paper can make up for fleshing ability, longevity, structural soundness, eye appeal and individual performance. We breed quality cattle with the commercial cattleman in mind—built for the rigors of our environment, selecting for traits that enable our mother cows to thrive on the harsh range conditions they run on year-round—easy fleshing cattle bred right from the ground up with good hoof and leg structure to trail home 25 miles each fall, year after year, and that can travel one or two miles to water and back each day. We breed cattle that can pack a punch and

push down the scales with depth, width and dimension, that have the phenotype to excel in the show ring and industry-leading performance in the feedlot.

IT IS THE MOTHER COW THAT IS AT THE FOUNDATION OF ANY GOOD BULL PROGRAM. The dams of the bulls in this offering are one of the biggest factors separating our bulls from others. Mothering ability, good udders and teat placement, calving ease and calf vigor can be the difference between a live calf and a dead calf in a winter snowstorm on the range, and so we breed our cattle accordingly. Calm dispositions are also a must.

We consider our customers and friends to be one of our greatest assets in the cattle industry. We thank you for your friendship and patronage. You can buy bulls with confidence in our sale and in our program. We stand behind our product with a one-year breeding soundness guarantee and expect that you will get many years of service out of the bulls you purchase. If you have any questions or concerns, or you want to just visit about our operation and cattle in the offering, please don't hesitate to give us a call.

In this edition of our catalog, we have included several quotes from scriptures, along with living Apostles and Witnesses of the Lord Jesus Christ, regarding the trials we face in life. Our hope is that they will bring you hope, joy, peace and a certain amount of understanding as you deal with the burdens you are experiencing or whatever trials lay in your path. Please be assured you are loved by an all-knowing, merciful Heavenly Father and that all your challenges and afflictions have purpose, meaning and a lesson to be learned. Remember, "all things work together for good to them that love God" (Romans 8:28). May you be blessed with the righteous desires of your heart and know that you are loved and prayed for. We look forward to seeing you March 8, in beautiful Beaver, Utah.

-The Yardley Family

WEANING WEIGHTS ARE ADJUSTED TO 205 DAYS OF AGE, YEARLING WEIGHTS AND SCAN DATA ARE ALL ADJUSTED TO 365 days of AGE UNLESS* ALL WEIGHTS AND THEIR ADJUSTMENTS ARE BASED OFF OF THE BREED ASSOCIATIONS UNLESS* ALL OTHERS ARE FROM CATTLEMAX

TRANSPORTATION

Beaver is 200 miles away from Salt Lake City or Las Vegas, NV, on I-15. From Salt Lake, SkyWest Airline commuter (The Delta Connection) serves Cedar City, which is 50 miles south of Beaver. St. George, UT is 100 miles south of Beaver on I-15. It is served by United, Delta, and American Airlines.

TRUCKING & DELIVERY

Please leave detailed information with the pay clerk about your trucking needs and arrangements. We will work with you to help find the best and most efficient means for hauling. We will guarantee to have your animals delivered to a central location within 300 miles of your home anyplace in the United States for no more than \$400/head. This guaranteed delivery price does not apply to cattle that have not been fully paid for within ten days of the sale date. No cattle will leave the ranch until paid for in full

ACCOMMODATIONS

Request the Yardley Cattle Company special room rate. Please try to reserve rooms as far in advance as possible to guarantee room rate.

Days Inn, North Exit (\$59)	435-438-7800
Butch Cassidy Inn, Downtown (\$98)	435-438-2438
Quality Inn, South Exit (\$130)	435-438-5426
Comfort Inn, South Exit (\$159)	435-438-6283
Eagles Landing, North Exit (\$69)	435-438-7800
Country Inn, North Exit (\$69)	435-438-2484

RANCH & SALE LOCATION

Once you arrive in Beaver, continue into town. At the corners of Center and Main Street, continue west on Center Street (Hwy 21). Continue 1.5 miles to the Yardley Black Cow/Calf sign, turn right and proceed 2 miles north and west across the field to our sale barn.

Please note: Upon Leaving Hwy 21, traveling north on the gravel road, the horses & cattle do not belong to us until you cross the cattle guard just below our sale barn.

SALE DAY BARBECUE

There will be a buyers appreciation BBQ lunch on sale day 12:00 pm at our sale barn. Special thanks to McKensie Petersen and Nathan Wilding.

TERMS & CONDITIONS

TERMS: Terms of this sale are cash, or a good check, unless arrangements are made prior to the sale. Settlement to be made immediately at the conclusion of the sale before animals are loaded. The right of property title shall not pass until checks have cleared. ***We reserve the right to keep or resell any animal not paid for in full within 60 days of the sale.***

BIDDING: All animals will sell as single lots to the highest bidder. Any disputes or challenges regarding bids will be settled by the auctioneer whose decision will be final.

RISK: All animals are at the owner's risk prior to their sale and become the property of the buyer as soon as the animal is declared sold by the auctioneer at which time the buyer assumes all risk.

HEALTH: Every bull in this sale, to the best of our knowledge, is free of any disease and will be eligible for interstate transport. Bulls were Dectomax treated. They have been vaccinated twice for IBR, P13, BVD, BRSV, 8-way Blackleg, One Shot Pasturella, and Enforce.

ANNOUNCEMENTS: Announcements from the auction block will take precedence over any printed matter, and any other announcements.

TRUCKING: All trucking is the responsibility of the buyer, but we will help make arrangements. Every effort will be made to minimize costs to the buyer. We can only get these bulls delivered to central points. All cattle must be paid for in full before leaving the ranch.

GUARANTEE: Every bull has been tested for Tric and semen evaluated by a licensed veterinarian. We will guarantee the bulls selling in this sale to be fertile at the time of sale. Several of the bulls in this sale are of "Herd Sire" quality. If the buyer chooses to have semen collected on a bull, Yardley Cattle Company can not guarantee that the semen will freeze. **KEEPING BULLS TILL MAY 15TH:** We can do this but encourage you to insure them as the risk is the responsibility of the

buyer. \$3.00 per head per day will be charged until the bulls are picked up.

LIABILITIES: Although accidents at livestock sales seldom occur, everyone attending this sale does so at their own risk. The owners and employees of Yardley Cattle Company assume no liability, legal or otherwise, in the event of an accident, bodily injury, theft, act of God, errors in catalogs or omissions, or percentage verification. We try to keep the most accurate records possible and have bull tight fences, but on a rare occasion, accidents of breeding occur that we are not aware of or cannot control. We will do everything we can to determine the correct parentage, but cannot guarantee it. **REGISTRATIONS:** REGISTRATION PAPERS WILL ONLY BE FURNISHED IF REQUESTED AT THE TIME OF SETTLEMENT AT THE CONCLUSION OF THE SALE OR WITHIN 3 WEEKS. If requested later, buyer must pay additional registration fees. Leave the name and address to which you would like your bulls transferred on your sale slip when you settle up. Please print so that it is legible.

CONTRACT: The above Terms and Conditions of this sale shall constitute a contract between buyer and seller and be equally binding on both. Animals that are resold following the sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by these Terms and Conditions. Late in the summer it is necessary to mix breeding groups. Only our own personal herd sires are taken on the mountain. Select groups of cattle will stay with one sire all summer long, but on the majority of late calving cows, we cannot guarantee sire parentage unless a parentage identification test is conducted. IGENITY labs runs this procedure for around \$30. When you get your bulls home put them with another bull or cow and don't leave them alone in a corral. This makes them wild.

Due to the size of the offering it is impossible to picture every bull. There are many quality bulls that may not be pictured that will fit your program. Feel free to call us prior to the sale, we are happy to help you select a bull to that fits your program best!

Steven Yardley: 435-310-1725 - Gib Yardley: 435-691-8688

BIDDING: All potential buyers MUST have a registered buyer number at the time of sale, or their bid is invalid.

PRE-SALE REGISTRATION FOR ATTENDING BIDDERS AND ABSENTEE BIDDERS

If you would like to register as an absentee bidder, please call Kara at 812-525-0359. You may be required to list your banks telephone number and your drivers license number. All absentee buyers must be pre-registered. Any lots purchased by absentee bidders must be paid for in full via invoiced ACH, check, cash, or wire transferred on Monday, March 13th prior to load-out or delivery unless prior arrangements have been made. We appreciate your cooperation.

WORK WITH ONE OF US TO FILL YOUR ORDER

If you are unable to attend the sale in person, or via DVAuction, please contact us, as we would be happy to accommodate you to the best of our ability. All bids are handled with strict confidentiality.

BIDDING VIA DVAUCTION.COM

Bidding online via DVAuction is fast and easy. If you do not have an account, please visit DVAuction.com. You can create an account, log on to watch and bid on sale day. (We encourage you to set up your account before sale day and log on with plenty of time before the actual sale begins).

You just visit the sale page for the auction and click the BID ONLINE button. There will be a GET BUYER NUMBER button that will automatically sign you in for the auction and give you a number. For more information contact, DVAuction at 402-316-5460.

THESE BULLS WILL SELL IN EVERYONES PRICE RANGE.

We cull bulls from branding up until the sale for structural soundness, quality, breeding soundness, and temperament. Not every bull is destined to sire calves. AS SEEDSTOCK PRODUCERS, WE TAKE THE RESPONSIBILITY TO MARKET QUALITY BULLS SERIOUSLY. We realize that your success depends upon our breeding program and we strive to have quality from the first lot sold to the last bull to walk through the sale ring.

FIRST YEAR BREEDING GUARANTEE

All bulls selling for \$3,500 or more will be covered 50% by Yardley Cattle Company if they are injured during their first breeding season. Breeding season is defined as the 90-day period following the first turnout of the bulls. 50% of the value of the injured bull will be given as credit in a future sale or toward a replacement bull if one is available. ALL INJURED BULLS MUST BE DIAGNOSED BY A VETERINARIAN AND WE MUST RECEIVE THIS AND A LETTER FROM YOU IN WRITING. Please notify us as soon as possible should an injury occur and prior to the injured bull being sold for salvage. If at all possible, we would like the injured bull to be returned to us. ALL CLAIMS MUST BE MADE BY OCTOBER 1st. We will not replace a dead animal for any reason.

RETAINING 1/3 SEMEN INTEREST ON ALL BULLS!

SEMEN INTEREST: We are retaining at least 1/3 semen interest in all bulls selling. The new owners of the bulls will have full possession and all salvage value. If semen is sold, we retain one-third of all revenue. There will never be more than 2 or 3 bulls a year that we will want to collect.

YARDLEY CATTLE CO INCENTIVE PROGRAM (YIP)

Yardley Cattle Company has spent generations working to bring you some of the best genetics in the country. It is our greatest desire that our hard work pays off for you and your operation. To qualify for Yardley Cattle Co's Incentive Program (YIP) the individual or ranch must meet the following criteria:

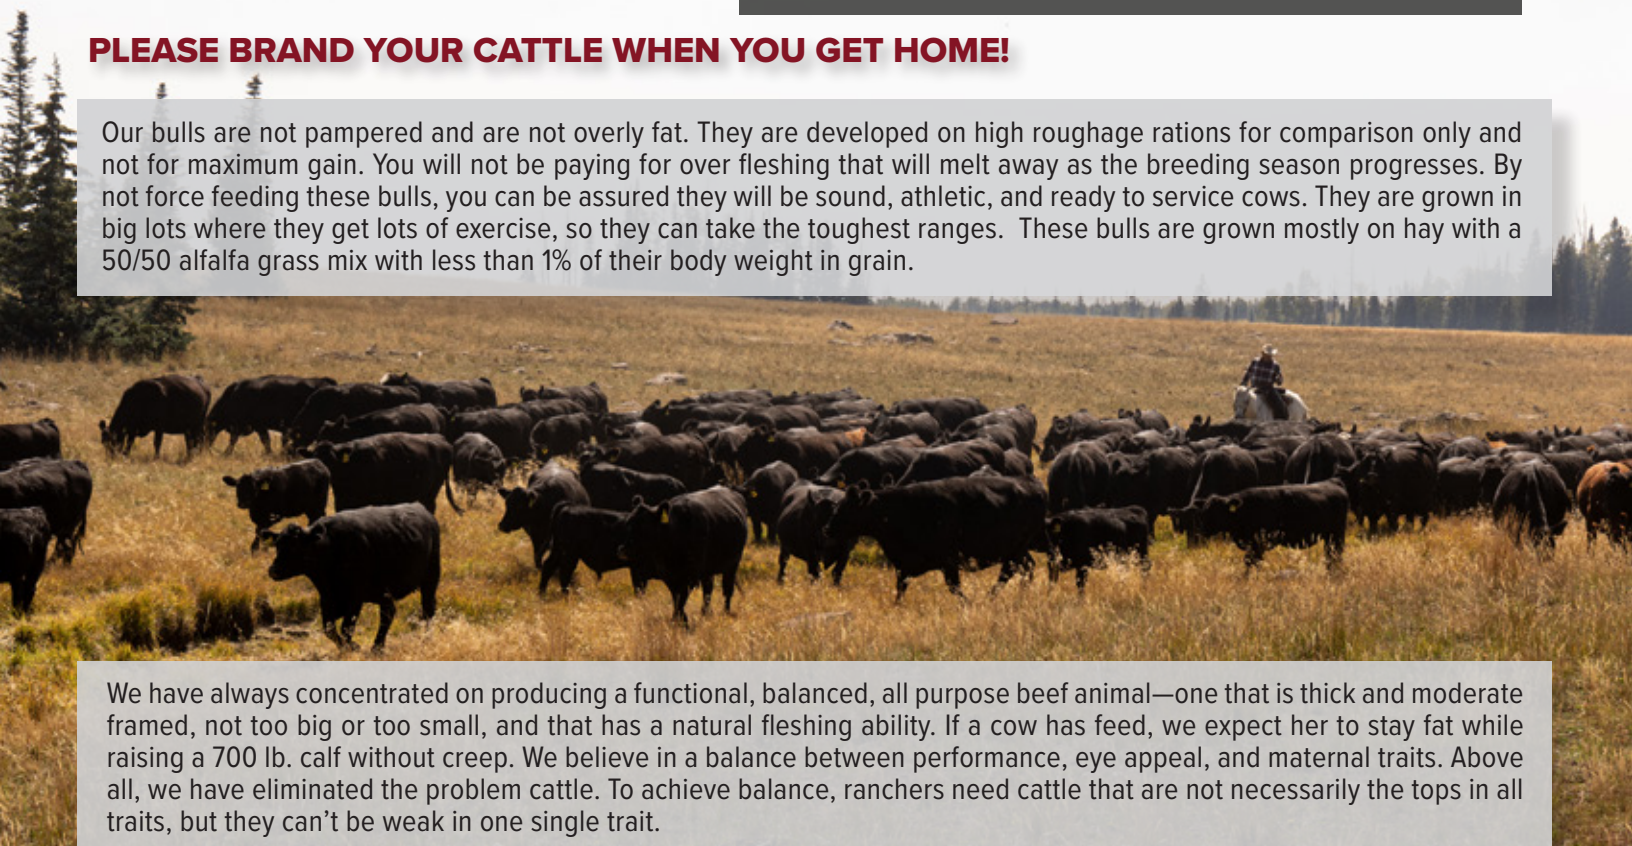

- Bulls individual purchase price must meet or exceed \$5,000 per bull. For example, buying 3 bulls above \$5,000 per bull and you will receive a 3% discount. If you buy 4 bulls and 3 are above \$5,000 per bull, but the 4th bull is purchased at \$4,000, you will receive a 3% discount, whereas the 4th bull would not qualify for a discount.
- All purchases must go to the same individual or ranch. Bulls cannot be lumped together between neighbors or friends.
- At any time Yardley Cattle Co believes that the YIP is being abused by any individual or ranch, the YIP will no longer apply to that individual(s) or ranch(es).

- 3 Bulls - 3%**
- 4 Bulls - 4%**
- 5 Bulls - 5%**
- 6 Bulls - 6%**
- 7 Bulls - 7%**
- 8 Bulls - 8%**
- 9 Bulls - 9%**

10 Bulls Plus - 10% Discount

PLEASE BRAND YOUR CATTLE WHEN YOU GET HOME!

Our bulls are not pampered and are not overly fat. They are developed on high roughage rations for comparison only and not for maximum gain. You will not be paying for over fleshing that will melt away as the breeding season progresses. By not force feeding these bulls, you can be assured they will be sound, athletic, and ready to service cows. They are grown in big lots where they get lots of exercise, so they can take the toughest ranges. These bulls are grown mostly on hay with a 50/50 alfalfa grass mix with less than 1% of their body weight in grain.

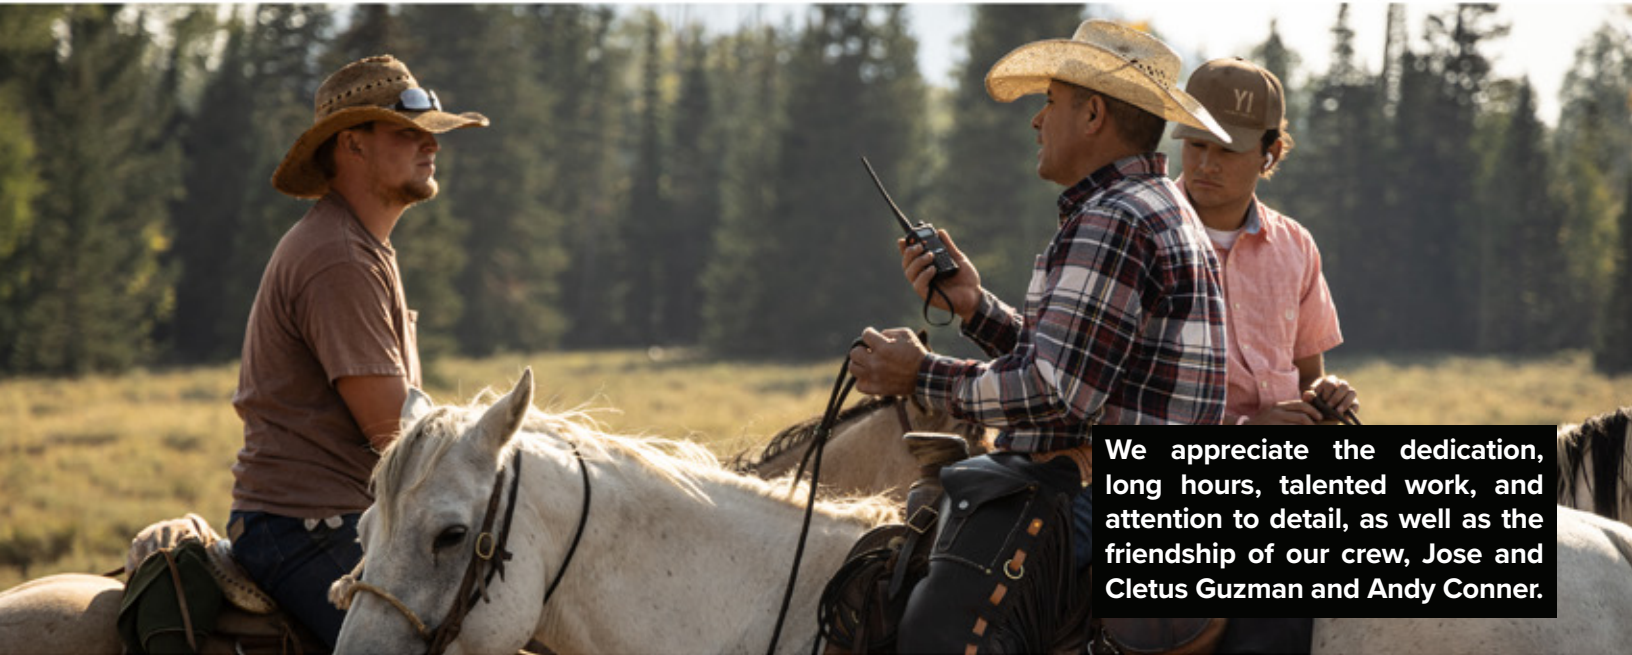

We have always concentrated on producing a functional, balanced, all purpose beef animal—one that is thick and moderate framed, not too big or too small, and that has a natural fleshing ability. If a cow has feed, we expect her to stay fat while raising a 700 lb. calf without creep. We believe in a balance between performance, eye appeal, and maternal traits. Above all, we have eliminated the problem cattle. To achieve balance, ranchers need cattle that are not necessarily the tops in all traits, but they can't be weak in one single trait.

THE FACTS ABOUT THE PAP TEST

Brisket Disease of cattle is the result of right congestive heart failure, but is brought on specifically by effects of the lower oxygen pressures present when cattle are kept at high altitudes above 7,000 feet. in elevation. The test is a measure of the pulmonary artery pressure (PAP). We have been testing our bulls for quite a few years. Most of our Simmentals summer from 9,000 - 10,000 feet elevation and we have very few of them ever affected by brisket disease since they originated

in the alps of Switzerland and were bred for higher elevation. Dr. Tim Holt of Colorado State University is the Country's greatest authority on this disease and has tested many thousands of cattle. Our bulls are tested in Beaver at 6,000 feet elevation. A pap score under 44 is low risk, 45-49 is moderate risk, and above 50 is high risk for cattle running above 7,000 feet of elevation. If you run under 7,000 feet elevation, PAP tests do not generally need to be taken into consideration.

IF YOU RUN BELOW 7,000 FEET ELEVATION, PAP SCORES SHOULD NOT BE CONSIDERED WHEN SELECTING BULLS.

We appreciate the dedication, long hours, talented work, and attention to detail, as well as the friendship of our crew, Jose and Cletus Guzman and Andy Conner.

WHY USE YARDLEY BULLS

- The feeders pay a premium for calves sired by our bulls because they are the best gainers and they have the look, eye appeal and uniform phenotype.
- Their daughters will be productive, structurally sound cows.
- Their calves will weigh 25 to 100 lbs more at weaning.
- These bulls are wintered in big lots on half grass/alfalfa and only 1% grain.
- They are born unassisted on the range and walk 25 miles to and from the summer range that goes to 10,200 feet elevation, so they have to be structurally correct.
- Our bulls are raised and developed at high altitudes and are PAP tested as a selection tool for those who run in higher elevations.
- We never creep feed our cattle, their birth to weaning growth is based solely on their ability to perform on their mothers.
- Our cows winter on desert range without hay. They have natural fleshing ability to stay fat on grass and take care of themselves.
- All bulls are performance tested and backed by our first year breeding guarantee.
- They have proven themselves to adapt to all environments and have sold into 32 states, Canada and Mexico.
- Simmental and SimAngus are some of the most sought after cattle by order buyers, feedlots and for replacement females.
- Yardley bulls are bred with the commercial cattlemen in mind.
- These are not ordinary cattle. They have more thickness, depth, muscling, fleshing ability, performance, and structural correctness in moderate sized packages.
- Cross breeding pays. Hybrid vigor increases the performance and longevity of your cow herd.
- You don't have to baby and pamper them.
- This is our livelihood. We work hard to ensure these cattle will do their best to increase the production of your herd.
- Your success is our success.

UNDERSTANDING THE DATA

Expected Progeny Difference (EPD) is the prediction of how future progeny of each animal are expected to perform relative to the progeny of other animals listed in the database. EPDs are expressed in units of measure for the trait, plus or minus. Interim EPDs may appear on young animals when their performance has yet to be incorporated into the American Angus Association National Cattle Evaluation (NCE) procedures. This EPD will be preceded by an "I", and may or may not include the animal's own performance record for a particular trait, depending on its availability, appropriate contemporary grouping, or data edits needed for NCE. Calving Ease Direct (CE), is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

Birth Weight EPD (BW), expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

Weaning Weight EPD (WW), expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

Yearling Weight EPD (YW), expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

Maternal Milk EPD (MK), is a predictor of a sire's genetic merit for milk and mothering ability as expressed in

his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

H/P/S: Horned (H), Polled (P), Scurred (S)

WDA: Weight per Day of Age=((Weight-Birth Weight)/Age in Days.

TG: Test Gain=((Weight-Weaning Weight)/Days on Feed)

Rib Fat: inches of fat over the Rib Eye muscle

REA: Rib Eye Area measured in inches and adjusted to Yearling Age.

%IMF: % Intermuscular Fat in the rib eye muscle.

SC: Scrotal measurement, actual scrotal measurement Feb 10-12th, 2025.

DWR: Dam's Weaning Ratio on her number of calves and how those calves weaned compared to the average during those years.

-Example: 5@110: bull's dam has had five calves that have weaned at 110% of the average.

The Key to the Puzzle = Balance

It's the hardest thing to keep in the front of our minds. We always want to think that bigger is better, or we buy bulls based on spread EPD's or we choose a bull because he has one trait that really stands out. We've all been guilty of it, but the real key is "balance," the ones that do all things well. I really believe that this is one of the hardest, if not the hardest, hurdle in breeding cattle. If we can stay focused on this, it will make us more profitable and better cattle breeders.

SUPERIOR LIVESTOCK AUCTION

Many of our customers like to sell their calves in Superior Sales. We have a "logo" that Superior puts on when the calves being sold are out of our bulls. The feeders pay a premium for calves out of our bulls because they know of the superior performance. This with eye appeal, structural correctness and exceptional carcass traits are coupled with docility and hybrid vigor. We have spent our lives breeding these cattle to perform and bring this premium. We pay Superior \$25/load to put our logo on the screen when our loyal customers' cattle come in. We are happy to do

this to assist you in getting top dollar for your calves. People who buy your calves will get a top return on their investment through our top quality genetics and be greatly satisfied with their purchase. In order to ensure this, we request that a minimum of 60% OF YOUR CALVES ARE OUT OF OUR BULLS/LOAD ADVERTIZED. This protects our quality reputation and ensures that whoever buys the calves are getting the advertised genetics. Please note that Superior will call us prior to placing our logo on any load selling to confirm that this is the case.

THE **YARDLEY FAMILY**
HELPING HANDS ON THE RANCH...

PSALM 127: 3-5
Lo, children are an heritage of the Lord: and the fruit of the womb is his reward.
As arrows are in the hand of a mighty man; so are children of the youth.
Happy is the man that hath his quiver full of them:

Conviction, popular sire of Commitment

Yardley Hilight, smooth-made maternal grandsire of Commitment

What an exciting way to start this year's offering! Yardley Commitment has been a standout individual from early on, excelling in phenotype, with explosive performance from a moderate birth weight, a powerful 740# WW and 1365# YW. He shows a robust amount of depth and dimension properly seated on an impeccable set of feet and legs. The more you see the more you like with this quality crafted masterpiece—powerful hip, massive topline, and quiet disposition. His maternal grandam records a phenomenal 10@103 nursing ration, a testament to longevity and performance. She continues strong as an amazing matriarch in our herd. SELLING ½ INTEREST, ½ POSSESSION.

Yardley Confidence is a beautiful baldy that strides out on a massive foot with exceptional length of body, a powerful hip and a smooth shoulder. He has tremendous growth and performance—so valuable when you sell by the pound with a massive 712# WW and a notable 1304# YW. With an ideal leg set, smooth joints, and fluid-like movement, he exemplifies why we love Conviction calves and why they start our sale.

His maternal grandam is one of our longest lived, most productive females on the ranch with an exciting nursing ratio of 13@103, including a \$12,000 feature female of our '24 sale.

Yardley Abound has been featured in several ads; he's a tremendously powerful individual with a huge top, massive middle, powerful bone and great presence. His dam is a beautiful Relentless daughter that was a featured lot of our '22 sale. His sire, TJ Stone Cold, has been a valuable asset to Triangle J and was one of their high-selling bulls alongside his flush mate TJ Chief. Abound ranks in the top 15% of the breed for WW, MILK, MWW, REA, as well as top 20% DOC and 25% YW. This bull has it all—phenotype, performance, pedigree and paper!

...the first great truth of all eternity is that God loves us with all of His heart, might, mind, and strength. That love is the foundation stone of eternity, and it should be the foundation stone of our daily life. - Jeffrey R. Holland

SFI Achievement, sire of Guardian

Yardley Guardian is a multi-dimensional bull with an incredible amount of length, width, depth and dimension in a smooth, designed package. Pounds are profit in the commercial cattle industry and Guardian has plenty of them with a hefty performance record of a 692# WW and a 1329# YW. His performance-driven dam records an impressive 5@105 nursing ratio.

I do not know why we have the many trials that we have, but it is my personal feeling that the reward is so great, ...So joyful and beyond our understanding that in that day of reward, we may feel to say to our merciful, loving Father, “Was that all that was required?” ...What will it matter... What we suffered here if, in the end, those trials...qualify us for eternal life...in the kingdom of God? –Linda Reeves

As long as a freight train and stout as a steamship, Red Rider is a handsome red bull of epic proportions with the top yearling weight of the year—an astounding 1,400#. Red Rider's dam, BSKF Red Velvet, is a beautiful, \$40,000, soft-made Sequia daughter and donor. She is a full sister to the \$205,000 sensation W/C Bank On It. Her first son sold for \$30,000.

His sire, Something About Mary, could have a book written on the tremendously influential offspring he has produced, many which sold for well over \$30,000 and topping out at \$167,500. With Yardley genetics in his pedigree top to bottom, he stands as another potent example of the power in the blood.

Northbound is a stout-made baldy that comes fully loaded with a tremendous amount of real-world growth and performance. Big volume, plenty of bone, soundness, and correctness throughout, he has muscle with power and still moves out, walking with correctness and authority. His sire, Dew North, was Grand Champion in Fort Worth.

Dew North, stylish sire of Yardley Northbound

No matter how serious the trial, how deep the distress, how great the affliction, [God] will never desert us. He never has, and He never will. He cannot do it. It is not His character [to do so].... He will [always] stand by us. We may pass through the fiery furnace; we may pass through deep waters; but we shall not be consumed nor overwhelmed. We shall emerge from all these trials and difficulties the better and purer for them. - George Q. Cannon

Elusive, powerful sire of Enticing

Top Gun, attractive maternal grandsire of Enticing

K277, \$8,250 maternal brother of Enticing

Yardley Enticing is a powerfully built, stout-hipped son of our purchase of K-LER's '23 sale. We bought part interest in him for \$20,000 K-LER Elusive. Elusive produced several of the lead-off bulls of K-LERs '24 NWSS Pen Show. One of them went on to be a \$15,500 high-seller in K-LER's sale. Let us believe him to be a one shot wonder, his calves averaged \$10,750 in their sale.

Mosiah 24:14 And I will also ease the burdens which are put upon your shoulders, that even you cannot feel them upon your backs, even while you are in bondage; and this will I do that ye may stand as witnesses for me hereafter, and that ye may know of a surety that I, the Lord God, do visit my people in their afflictions.

KLER Elusive, popular sire of M398

Yardley Standout needs no introduction as one of the most profitable and prolific sires to grace the sod at Yardley Cattle Company. He sired the high-selling keep of offspring and show heifers in several sales. His daughters quickly stepped into the role of reliable cornerstone herd matrons with immaculate foot, leg, and udder quality. His sons are masculine and stout with exceptional carcass merit. M272 promises the same reliability and quality as his sire before him.

M316's sire, County O, is a moderate-framed, big-hipped, stout through whose lower one-third has all the rib you could want and is still able to do that with the front-end—you just do not find this in the Simmental world. Simply put, he's a purebred that looks like a half-blood. His daughters are some of his greatest assets and several have sold for over \$25,000, including a \$39,250 fancy female in Schakke's '21 sale.

Guardian is M388's \$100,000 sire. CRLS Guardian has a huge spread with a -2.2 BW to a 156 YW while still being in the top 1% for marbling, API, and TI, in addition to being a trait leader across the board in every measurable number. Guardian is the top-number bull in the entire nation with MUSCLE, power, and look. The Simmental breed was meant to add power to your cow base so you don't have to compromise if you want to use a bull with an impeccable genetic profile. Scheifelbein in Minnesota sold 20 Guardian sons that averaged \$7,000 and TSN Simmentals in South Dakota sold a Guardian son to Werning Cattle for \$37,000.

This stout-built bull hails from a proven and productive cow family. His tremendous dam always weans a big calf and comes home fat in the fall. She has about as much middle as you could effectively put in an individual. She records an inspiring 10@101 nursing ratio, including a \$10,000 featured favorite of last year's female sale selected by our good friend Steve Smith of Lehi, UT.

What a stud, what a man! Here's one to circle and put a star around. We don't know how you could make a more balanced, deep-bodied, big-topped, stout-hipped, masculine bull on a more ideal set of feet and legs. His sire, Linz Exemplify, has a unique combination of top percentile Weaning Weight EPD and Yearling Weight EPD, along with breed leading \$Weaned calf value index and \$Combined value index. Exemplify does all that and more with a moderate frame size, extreme ease of fleshing and exceptional foot score EPD data! Two daughters sold for \$41,500 in Vintage Angus's sale and his full sister sold half interest for \$60,000 in the 2021 Linz Heritage Angus Sale.

K151, pretty dam of M259

Exemplify, massive sire of M259

M304 is backed by one of our favorite cow families, anchored in our old herd matron and donor dam, P153. She produced several stylish show heifers. Her best heifer, a Dream On daughter we kept, is F450's maternal grandam. Her best and most productive daughter is sired by High Regard and she has been the epitome of a quality brood cow. She has exceptional depth, capacity, muscle definition, and structural soundness. She's a great milker with a perfect udder and ideal teats, and she's the dam of M304. She has weaned ten hefty calves that have averaged over 700#. Her past two quality bulls highlighted our sales at \$11,000, selling to great customers Darrel Shawcroft of LaJara, CO and Allen Brothers Cattle of North Powder, OR.

If you are looking for a guy to stretch out some females and give them added length of body, this masculine rip deserves your consideration. His powerful dam has consistently produced quality calves with a nursing ratio of 8@103, including three sons that have averaged over \$6,500.

No pain that we suffer, no trial that we experience is wasted. It ministers to our education, to the development of such qualities as patience, faith, fortitude and humility. All that we suffer and all that we endure, especially when we endure it patiently, builds up our characters, purifies our hearts, expands our souls, and makes us more tender and charitable, more worthy to be called the children of God . . . and it is through sorrow and suffering, toil and tribulation, that we gain the education that we come here to acquire and which will make us more like our Father and Mother in heaven. -Orson F. Whitney

M363 HAILS FROM A TRADITION OF GREATNESS with a maternal line that is second to none. His elite maternal grandam's maternal sister was the highlight and high-selling \$24,000 heifer of our '16 offering, Yardley Doll Face, selected by Greg Kroupa of SD. His dam's maternal grandam was a featured \$11,100 donor prospect of our '20 sale, selected by Gary Sumpter of CA. A227 was a proven producer of quality calves with a notable weaning ratio of 5@103! A227's cornerstone donor dam played a pivotal role at our ranch in producing quality, sale-topping genetics. Her two, featured daughters were high-selling leadoff breds at \$20,000 and \$16,500, both maternal sisters to A227! In '15, another crowd favorite was selected by Ronnie Smith of Denton, TX for \$7,500!

When we encountered M368's dam at the Classic in Oklahoma, we knew we couldn't come home without her. She's a perfectly designed Steel Force daughter—feminine-fronted, deep-bodied, beautifully hipped and structurally sound with an excellent udder. She has not disappointed in her offspring and has passed those same characteristics on, including a handsome \$7,000 stud sold in last year's sale to Dan and Holly Varner of Delta, CO. M368's \$100,000 sire, CLRS Guardian, tops the charts on paper and in real-world performance.

What a way to start the Angus with an Arctic Blast! This handsome phenomenon is robust in his design and exceptional in his makeup. He Strides out in confidence on an exceptional set of feet and legs and is the epitome of the kind of Angus cattle we are striving to make.

His sire, Coleman Below Zero was the \$150,000 top-selling bull of the 2023 Coleman Angus bull sale and selected by Janssen Angus of Iowa. A sure shot heifer bull with exceptional phenotype, exceptional depth of body, and represents great breed character in a well-balanced number package. His dam, Coleman Donna 0153, has a progeny production record of BR 1@91, WR 1@107, YR 1@104 and her dam is a full sister to Coleman Donna 4203, who is the dam of the \$150,000 Coleman Banker 9215.

Coleman Below Zero, sire of Arctic Blast

K8, pretty dam of Arctic Blast

Powerful in his phenotype Resolute records a moderate 74# BW with an astounding 708# WW, giving him the highest adjusted WW of any Angus in our offering. He's as deep as you can make one, has a powerful hip, and an impressive smooth shoulder with excellent running gear. And a massive 14.2" REA, giving him the largest REA of any Angus in the offering.

-Resolute's maternal line is loaded with remarkable females and tremendous production. His dam has an exceptional nursing ratio of 8@103 which includes an \$8,000 sale day favorite selected by our good friend Boyd Snow of Jensen UT. His maternal grandam, not to be surpassed records a nursing ratio of 9@103; tremendous cows for a tremendous bull.

-Resolute's sire, Basin True Grit were favorites of Basin Angus Valley one son sold for a valuation of \$65,000 as the Lot 1 female of the 2024 Basin female sale and the first True Grit daughter sold at public auction was the \$20,000 heifer calf featured with her \$20,000 first calf dam on the cover of the 2023 Basin female sale catalog with his first son selling two thirds interest for \$75,000 as a favorite of the 2024 Basin sale bulls.

The maternal backing and his flawless phenotype and structural soundness make this stud an enticing genetic and phenotypic gem. With his extreme rib shape and dimension he's designed for fleshing ability and capacity. SECOND HIGHEST WW AND YW EPD. His exceptional maternal brother, Yardley Commitment, was our high-performance Angus in his offering and sold for \$9,750 to the Avilas of California.

-His powerfully designed, perfect uddered donor grandam has as much middle and shear volume as any cow on our ranch. She consistently produced big-buttred, deep-sided high-performing offspring that possess the eye-appeal and structural design to win purple ribbons, included in this was our '09, \$9,100 sale topper. Her calves have averaged 697# such as our top-weaning heifer in '06 at 784# who also played a vital role in our donor program and recently sold a \$10,500 son to good friend Justin Allen of North Powder, OR. TWIN

Consistency and quality are the words I would use to describe M342's broody-made, stylish dam. M342's beautiful maternal sisters highlighted our '23 Angus division averaging \$6,800; built right from the ground up, with exceptional hoof and leg structure that transitioned into powerful hips with an abundant amount of lower quarter, massive amounts of thickness, volume and expressive muscle shape. Their dam produced an outstanding leadoff Angus in '20, Yardley Bumper Crop, selected by Mike Robertson of Santaquin UT.

M403's sire, Ellingson Badlands, was the Lot 1 lead-off Rider Pride son and \$80,000 top-selling bull of the 2021 Ellingson Angus production sale. Admired by astute cattlemen from all parts of the country, Badlands puts trait balance front and center. He ties together tremendous center body mass and base width with a sound structural design and proud stride. He had a WR of 111, YR of 106, IMF ratio of 130 and Ribeye ratio of 106. His Advance donor dam is one of the top young females at Ellingson Angus. She is a direct daughter of EA Bells Girl 2181, a long-time Ellingson donor and the \$35,000 Pick of the Ellingson Cowherd in 2020 to Ingram Angus.

This powerful hipped bull really packed on the pounds postweaning, doubling his weight. We had to wean him early because his big-bodied dam became sick. His maternal grandam is a massive ribbed, stout hipped, front-pasture type Angus matron who always stays fat and weans a big calf. His dam got bred when some bulls from our '23 bull sale hopped the cattleguard and bred her, so we know he's out of a Yardley bull, just not which one.

Talk about a tank! If you are looking for a Simmental bull to soften up a set of cows and make some mouthwatering replacements, then don't miss out on this gem. Take Heart has a kindhearted disposition. He's loaded with a big top, stout hip, exceptional leg and foot structure, bringing it all together in a complete package. He ranks in the top 3% MCE, top 10% MARB, top 15% API, top 20% TI, top 20% CE, top 25% MILK & STAY, top 30% CW & ADG, top 35% BW & MWW—balanced numbers with an exceptional phenotype.

Christ says, "Give me All. I don't want so much of your time and so much of your money and so much of your work: I want You. I have not come to torment your natural self, but to kill it. No half-measures are any good...Hand over the whole natural self, all the desires which you think innocent as well as the ones you think wicked--the whole outfit. I will give you a new self instead. In fact, I will give you Myself: my own will shall become yours. – C.S. Lewis

Maternal sister to dam of M314

Conviction, sire of M314

If you're looking to make a fancy set of show-stopping females, search no farther than Contentment. You'll love his sleek, stylish design that couples phenotype with performance. From his baby-doll head to his smooth shoulder, traveling across his big top and sweeping rib cage, then tying into a powerful hip—all built on a solid set of wheels, you're going to like the looks of this attractive gentleman.

His maternal grandam is one of my favorite Angus cows & Sinclair Mountain Pass daughters—a beautiful, broody, easy-keeping herd matron. She produced Yardley Nickle Mountain, a leadoff \$8,250 bull in our '17 sale, purchased by our good friend Mike Larsen of Ephraim, UT.

Helaman 5:12 And now, my sons, remember, remember that it is upon the rock of our Redeemer, who is Christ, the Son of God, that ye must build your foundation; that when the devil shall send forth his mighty winds, yea, his shafts in the whirlwind, yea, when all his hail and his mighty storm shall beat upon you, it shall have no power over you to drag you down to the gulf of misery and endless wo, because of the rock upon which ye are built, which is a sure foundation, a foundation whereon if men build they cannot fall.

M385 is a red-meat maker whose highly prolific and profitable dam has an astounding nursing ratio of 13@101—a true testament of longevity, functionality, and productivity. Her past three offspring averaged over \$6,000/head. War Paint is the \$70,000 sale topper from the recent Triangle J Ranch, homozygous black and polled and posted a 205-day weight of 815 pounds, a 365-day weight of 1463 pounds. His EPDs place him in the top 25% for birth weight, 3% weaning, 4% yearling, 4% milk, 1% maternal weaning weight, 1% stay, 15% docility, 4% carcass weight, 15% marbling, 30% ribeye area, a 173 API (top 3%) and 98 TI (top 2%). He is a truly elite, balanced bull with solid calving ease that excels in growth, maternal traits, docility and carcass traits.

M307 is backed by one of my favorite cow families, anchored in our old herd matron and donor dam, P153. She produced several stylish show heifers. Her best heifer, our own S25 is a Dream On daughter and is M307's second maternal grandam. S25's best and most productive daughter is sired by High Regard. She has been the epitome of a quality brood cow with exceptional depth, capacity, muscle definition, and structural soundness. She's a great milker with a perfect udder and ideal teats, weaning ten hefty calves that averaged 704#. Her past two quality bulls highlighted our sales at \$11,000, selling to great customers Darrel Shawcroft of LaJara, CO and Allen Brothers Cattle of North Powder, OR.

M381 is loaded with cow power from some of our best Angus herd matrons. His maternal grandam was one of our esteemed Angus heifers. His tremendous maternal great-grandam, X14, is our favorite, easy-fleshing SAV Pioneer daughter. She is loaded with true Angus-breed character. Her ten outstanding calves averaged a powerful 710# and ratioed at 108! One son, Yardley Hedge Fund, topped our '21 sale at \$15,000, another outstanding son sold for \$10,000 to Kunzler Ranch of Park Valley, UT, and two other tremendous bulls sold for \$9,500 to 3D Cattle Company of Anderson, CA and Steve Smith of Lehi, UT respectively. Talk about cow power!

M366's sire, Exclusive, was introduced at the NWSS where he was the powerful lead bull in the Grand Champion Pen for Kearns Cattle Co. He then traveled to Fort Worth and sold for \$120,000 for half interest! Exclusive is flawless at the ground: big footed, stout boned, and flexible in his movement. He's extremely athletic with tremendous power, balance and eye-appeal. His maternal sister topped the 2017 "Event Sale" at \$30,000, and his famous grandam produced breed-impacting sires, Classified and Carver.

Some cows, like people, leave memories that stick with you long after they're gone. Some memories you look back on with fondness, and others make you wonder, "What are the odds?" Such was the case with M374's maternal grandam and donor, P199. She wedged herself as tight as could be into a small, narrow bog on the mountain and there was no way we could get her out—she was simply too big and too stuck for horses and ropes to get the job done. Luckily, there was an excavator who was closing the road nearby and he was able to gently lift her out with his machinery. We were all thankful that day for a little miracle.

Check out this chunk! He's a complete package with an abundant amount of thickness, and volume. This smooth-made, stylish-designed bull brings a lot to the table. He moves out with confidence on a big set of feet and exceptional leg design. His long-lived, productive maternal grandam produced our '15 high-selling \$10,000 Angus selected by Patrick Stephanoff, and another \$10,000 highlight in our '23 sale, purchased by Steve Smith of Lehi, UT. She records an astounding 721# WW average on nine calves. His sire, King of Diamonds, was selected the 2019 NWSS Reserve Simmental Bull and 2019 NAILE Champion Simmental Bull.

M324's sire, Coleman Banker, was the \$75,000 top seller and second heaviest bull in his contemporary group. He was the No. 1 ADG Bull on Test and had an actual birth weight of 75 lbs. His dam, Coleman Donna 4203, has a progeny production record of BR 3@93, WR 3@104, YR 3@107. The maternal sister, Coleman Donna 9220, was the featured lot 1 female of the 2021 fall production sale who sold at \$45,000 for one-half interest of a \$90,000 valuation as the top-selling, two-year-old female to Seven Bar O Cattle of Texas.

M273's maternal grandam, Miss Yardley S19, was a tank that passed down a tremendous amount of thickness and ideal phenotype, averaging an impressive 697# WW and a nursing ratio of 107, along with a 75# BW average on nine natural offspring. As a first-calf heifer she weaned a powerful 793# calf that went on to be our '08 high-selling bull for \$10,500, purchased by our good friends, the Walkers, of Menan, ID. S19 has several outstanding daughters in production in our herd. Donor daughter Y64 was the heavy-weaning heifer of her calf crop at 864# act. and produced a \$10,500 bull calf selected by Justin Allen. Another first-class daughter weaned our highest-weaning calf one year at 840# and produced another \$8,500 son. One daughter had the lead-off bull in '18 and bragged a 108 weaning ratio on seven calves with a scale crunching 724# average. Another daughter had a \$10,500 bull, a \$9,500 bull, and a weaning ratio of 106 on four head with a hefty 732# average!

Here's a big-topped, massive-hipped, strong-boned baldy with a big hoof and excellent structural soundness. His exceptional dam is out of our prettiest red cow and the only red cow we have ever flushed, giving you an idea of what we think of her. She is a beautiful herd matron with a perfect udder and teat attachment. She always stays fat and weans a big calf, averaging a whopping 712# with a 108 weaning ratio on eight head, including \$14,000 Yardley Excellence, our '21 high-selling red bull selected by Bill Carsten of Hotchkiss, CO, and our leadoff lot 1 bull in '18, \$9,500 Clear Cut, purchased by our good friends the Kunzlers of Park Valley, UT. M470 is a little flighty.

M484's sire, Pay the Star, is the result of crossing two of the most known and recognized individuals in the Simmental breed—the back to back NWSS Supreme Champion Simmental bull, Pay the Price, and the renowned royal donor, Miss Star Above, owned by our great friend Ryan Schliff of Tree Lane Farms. This was no coincidental mating. When Ryan approached us about purchasing a flush out of Miss Star, we both felt Pay the Price would be the best mating for this elite breed icon. Miss Star did not disappoint! Pay the Star is bold in his design, smooth in his composition, stylish and correct—built right from the ground up.

If you're looking for a calving-ease package in a SimAngus bull, then study this fine dime carefully. With a feather light 70# BW, he ranks in the top 20% for CE and the top 35% for BW in the Simmental breed. He is adequately boned, smooth shouldered, and has a sleek, stylish design. His dam is an own daughter of the renowned Something About Mary (SAM). His sire, Coleman Below Zero, was the \$150,000 top-selling bull of the 2023 Coleman Angus bull sale and selected by Janssen Angus of Iowa. He is a sure-shot heifer bull with exceptional phenotype and impressive depth of body, representing great breed character in a well-balanced number package. Below Zero is also the sire of our lead-off Angus, Yardley Arctic Blast.

M379's maternal brother was a \$7,700 sale-day favorite, selected by Navarro Cattle Company of Montrose, CO.

His sire, Yardley Grandstand, was an outlier from a young age. His square hip, long body, massive rib, and depth caught our eye from the beginning. Grandstand continued to impress through weaning and accelerated in the feedlot.

Sire of M413

\$7,700 maternal brother of M379

Imagine yourself as a living house. God comes in to rebuild that house. At first, perhaps, you can understand what He is doing. He is getting the drains right and stopping the leaks in the roof and so on; you knew that those jobs needed doing and so you are not surprised. But presently He starts knocking the house about in a way that hurts abominably and does not seem to make any sense. What on earth is He up to? The explanation is that He is building quite a different house from the one you thought of - throwing out a new wing here, putting on an extra floor there, running up towers, making courtyards. You thought you were being made into a decent little cottage: but He is building a palace. He intends to come and live in it Himself. - C.S. Lewis

Looking for a heifer bull to add chrome to the equation? With M320 you won't have to sacrifice quality or conformation to get both. You'll flat out love the style and design of this handsomely built bull with excellent bone and foot structure. He's sure to leave you with a remarkable set of moderate-made, easy-fleshing females. He ranks in the top 10% of the breed for both CE and BW, and in the top 15% for MCE.

Maternal grandsire of M439 and M410

M439's dam, F42, is the epitome of what we want our Simmental brood cows to be. She's a deep-bodied, easy-fleshing, excellent-uddered, flashy-fronted, solid-structured female in a moderate, sensible package that weans a nice calf and stays fat doing it. Simply put, she's a front-pasture female and one you wish you could replicate.

Guardian, sire of M410

CLRS Guardian is M410's \$100,000 sire. Guardian has a huge spread with a -2.2 BW to a 156 YW, while still being in the top 1% for marbling, API, and TI, in addition to being a trait leader across the board in every measurable number. Guardian is the top-number bull in the entire nation with MUSCLE, power, and look. The Simmental breed was meant to add power to your cow base so you don't have to compromise if you want to use a bull with an impeccable genetic profile. Scheifelbein in Minnesota sold 20 Guardian sons that averaged \$7,000 and TSN Simmentals in South Dakota sold a Guardian son to Werning Cattle for \$37,000. This bull is on the flighty side.

Gorgeous donor dam of M453

M280 is a long-bodied, deep-sided, stout-hipped bull. We found him on the range and never could find his dam. He performed exceptionally well with a mighty 692# WW and sling shotted forward to a 1210# YW, talk about a performance punch! We don't know who his dam or sire are other than that he is Yardley bred on both sides.

We purchased Black Ruby from Ruby Cattle Company in IA to use as a heifer bull. He fulfilled that purpose and should have a lot of good years left in him. He was unassisted out of a first calver and still boasts a WW ratio of 115. You have to appreciate his balance on paper as well, with several EPDs in the top 15% of the breed or better—top 2% CE, top 3% MCE, top 15% TI & MILK, top 20% BW, MWW, MARB, API, top 35% WW & YW.

James Gilbert Yardley was recently called to serve a mission for The Church of Jesus Christ of Latter-Day saints for two years in the Missoula Montana Mission. We are super excited and proud of him and the fine young man he has become and continues to grow into. We want him to know he will be in our thoughts and prayers as he faithfully serves the Lord in teaching the wonderful people of Montana. We love you and are so proud of you James! James begins his Mission on March 3, 2025.

Yardley Example is our one and only Maine of the offering, but what we lack in quantity, we make up for in quality. He's a stylish stud with a zipper-tight neck, strong top, long body, a stout hip and excellent hair. His sire, Linz Exemplify, was the high-selling bull of the 2019 Linz Heritage Angus Bull Sale for \$150,000. Exemplify recorded in the top 1-2% in nearly every \$ index. Yardley Example also has a stellar set of numbers ranking in the top 2% for WW and 1% for YW.

Matthew 11: 28-30

28 ¶ Come unto me, all ye that labour and are heavy laden, and I will give you rest.

29 Take my yoke upon you, and learn of me; for I am meek and lowly in heart: and ye shall find rest unto your souls.

30 For my yoke is easy, and my burden is light.

YARDLEY CATTLE CO.

SIRE LINEUP

Three separate breeds, three individual herds of cattle, one common goal. Our focus in all three breeds is to produce cattle with rib shape, dimension, solid tops, easy fleshing, and be structurally sound and functional. We will continue to focus on solid cow families combined with powerful herd sires. Semen Available on most sires.

WAGR MR REMEDY 1054J

POLLED PB SM **BD 3/13/2021** **ASA 3961824**

SIRE: : SO REMEDY 7F

DAM: WAGR MS LIGHTNING 8157F

Remedy 7F is the record setting Simmental bull that sold for \$530,000 in the '21. Remedy was then selected as the 2021 Cattlemen's Congress Grand Champion Simmental Bull. We were very impressed with his offspring on display at the Denver Stock show. When we took a trip through South Dakota and visited Chris Effling the Remedy calves again stood out. At the top of our list was his leadoff Remedy son, 1054J. He's got a soft look, cool and completely loaded with a ton of rib shape and dimension in a purebred, Homo Black, Homo Polled package. He is sure to improve phenotype while adding power and performance without increasing mature size. He moves out on a sound foot with style and tremendous quality that is even more impressive on the move.

SIRE: LLSF PAYS TO BELIEVE ZU194

DAM: ES D52 BY ES LOADED BU56-1

SFI Conviction caught my eye at the 2023 NWSS pen show where he stood in Schaake's Reserve Champion pen of three. He had the best feet and legs of any bull in the yards; tracking wide and nailing every step as he goes. He has a massive hip with plenty of extra "junk in the trunk" and a huge, strong, level top. He has a smooth shoulder and is loaded with real world depth and dimension. He ranked in the top of his contemporary group for weaning weight, back fat, and REA and #2 for YW. He has an extremely easy going, docile disposition. This summer he held his flesh as good as any bull we've owned and did a tremendous job covering the cows. We couldn't be more excited for his first crop next spring.

SFI HOT CHILLI PEPPER J7D

POLLED PB SM BD 1/20/2021 ASA 3934766

SIRE: GEFF COUNTY O

DAM: SFI SHES A BOMB D7 BY HIGH VOLTAGE

We have been on the search for quite some time to find a red bull with all of the bells and whistles to add to the herd with the ever-increasing demand for quality red Simmentals. When we encountered “Hot Pepper” we knew we had found the bull that would fit the ticket. From the heart of Schaake’s elite ’22 pen of three Reserve Champion bulls at the Cattlemen’s Congress. He is a naturally proud headed individual with an impressive amount of bone and muscle. He has impeccable structure, awesome hair, and is loaded with width and red meat. He boasts one of the biggest ribeye’s in their offering, a 17.04” with adequate IMF and a 41” scrotal.

YARDLEY PAY THE STAR G514

PB SM **BD 2/7/2019** **ASA 3622921**

SIRE: SC PAY THE PRICE C11

DAM: MISS STAR ABOVE BY CUT ABOVE

Pay the Star is the result of crossing two of the most known and recognized individuals in the Simmental breed; the back to back NWSS Supreme Champion Simmental bull, Pay the Price, and the renowned royal donor Miss Star Above owned by our great friend Ryan Schliff of Tree Lane Farms. This was no coincidental mating; when Ryan approached us about purchasing a flush out of Miss Star we both felt Pay the Price would be the best mating for this elite breed icon. Miss Star did not disappoint! Pay the Star came out looking good and he has continually gotten better with Age! He's bold in his design, smooth in his composition, stylish and correct; built right from the ground up with an excellent set of feet and legs. Homo black Homo polled.

NOTES

FOOTPRINTS

One night a man had a dream. He dreamed he was walking along the beach with the Lord. Across the sky flashed scenes from his life. For each scene, he noticed two sets of footprints in the sand: one belonged to him, and the other to the Lord.

When the last scene of his life flashed before him, he looked back at the footprints in the sand. He noticed that many times along the path of his life there was only one set of footprints. He also noticed that it happened at the very lowest and saddest times in his life.

This really bothered him and he questioned the Lord about it. "Lord, you said that once I decided to follow you, you'd walk with me all the way. But I have noticed that during the most troublesome times in my life there is only one set of footprints. I don't understand why when I needed you most you would leave me."

The Lord replied, "My precious child, I love you and I would never leave you. During your times of trial and suffering, when you see one set of footprints, it was then that I carried you."

SUU^{The} Legacy and the Call

I was privileged to attend college and receive an Ag degree from Southern Utah University (SUU). The following article is taken from their website:

“In the annals of American higher Education, there is no more dramatic history of the founding of a school than Southern Utah University, nor a more striking example of the commitment of Utah’s early pioneers to education. The Legislature authorized a branch of the teacher training school to be located in Southern Utah. When named the site of the new school, Cedar City was a community of less than 1500 people and when plans arrived for the new school building, and city leaders concluded that the construction of such a large building was beyond the town’s capacity. The school was housed in an existing building downtown, and in September 1897 classroom activities began. School had been in session for only two months, when the Attorney General ruled that the size of the downtown building did not comply with the law, which required that the school have its own building on land deeded to the state. Furthermore, it was ruled that if a building was not erected by the following September, the school would be lost. The cost of the building was equivalent to the town’s total business

volume for an entire year and would require beating the mountain snow to secure lumber to construct the new building.

On January 5, 1898, the first of a long line of townsmen to face the bitter winter weather of the mountains left Cedar City for a sawmill 35 miles away (near present-day Brian Head) to cut the logs necessary to supply the wood for the new building. That expedition, and others that followed, worked in 40 degrees below zero temperatures. To protect legs from the biting winds, they tied gunny sacks about their waists and legs. The initial expedition, engulfed by a record snowstorm, attempted to return to Cedar City and was forced to wade through some snow drifts that were 15 feet high and 100 yards long. An old sorrel horse, is credited with having saved the expedition by walking into the drifts, pushing and straining against the snow, and throwing himself into the drifts again and again until they gave way. Then he would pause for a rest, sitting down on his haunches the way a dog does, then get up and start again. It took two and a half days to get a load of logs to Cedar City. When heavy snows kept provisions from reaching the working men, they subsisted on

a diet of dried peaches. From January through July, they kept up their labors. The bricks for the building, were made by people who remained in Cedar City, often putting in 12 to 14 hours a day on the project. To purchase building materials that could not be made locally, people donated their stock in the local Co-op store and cooperative cattle company. One family gave the siding off their barn, another gave the lumber they had purchased to build a kitchen on their home. Still, others gave prize lumber that had been saved for cons.

When September 1898 arrived, the building was completed. It contained a large chapel, library, natural history museum, biological and physical laboratories, classrooms, and oces. It stands today at the end of the founders' walkway. The interior has been remodeled several times but the exterior walls are the original ones constructed in 1898. The first building, (Old Main) was literally torn from icy crags and molded by the hands of more than 100 men and women. The University was given a heritage unmatched by any other educational institution in the United States."

I love the story of Old Main and Old Sorrel, and the tremendous men involved. The original Jensen Sawmill referenced in this story sits on the edge of one of our permits where a small plaque has the referenced article and a few more details. I love stopping there during our fall gather to read about this courageous feat. There is also a larger-than-life bronze sculpture of the "Old Sorrel" expedition. When I reflect on the dedication and devotion of these men who literally risked their lives in pursuit of higher, better education, I am inspired by their tenacity, courage, and self-sacrifice. I am awestruck by the fortitude and determination of these stalwart pioneer forebearers.

They lived in their time and era; we live in ours. Gone are the days of fighting through fifteen-foot snow drifts with a horse drawn wagon. But in our day, we must boldly bare the baton handed down from their calloused hands to us, the benefactors of their dedicated devotion. To us is given the opportunity to continue this great legacy of learning.

At this time, Southern Utah University is in dire need of a new building for their Agriculture Department farm. They have outgrown the meager classroom that was once a small dairy parlor. However, due to budget cuts from the legislature, they have to prove that the need is big enough, that there is enough community support, and that they can garnish enough resources in a good-faith down payment to show it is justifiable. Essentially, the Ag department is tasked with the job

of striking the proverbial match to light the fire of funding from the state legislature.

Having attended school at SUU myself and knowing of the quality education available from this institute, I can witness both the need for a new building and the standard of excellent education that will ensue. It will benefit the students devoutly studying agriculture, and those merely taking ag classes to fill an elective or a general. It will also benefit the community as a place of gathering, especially for ag-related issues and smaller conferences.

The proposed building will be a simple, rectangular steel building approximately 90'x100' with sufficient classroom space for four classrooms, a large assembly room in the middle, and restrooms and possibly a small oce and kitchen area.

To show our support of, and belief in, the need for this building Yardley Cattle Company has committed to price match fundraising efforts for the new building to the amount of \$5,000. We invite you to join us in raising sufficient funding. SUU will have a small booth at the back of our sale barn on sale day where you can contribute funds, or you can contribute by going to: <https://gift.suu.edu/suu-valley-farm-classroom-building> or use the following:

Thank you for your generous donations and support in enhancing the educational experience of those studying Agriculture at Southern Utah University.

Proposed Ag classroom building at the SUU Farm in Cedar City, UT.
