The cattle business is our only business and has been for the past 100 years. Purposeful selection and Aling for 56 years has resulted in problem free cattle developed for range conditions, eye appeal, and performance. The bulls in our sale are the best you can buy anywhere; built right from the ground up. Our cattle are low maintenance, structurally sound cattle which have had major emphasis placed on teat and udder quality, fertility, hoof and foot quality, balanced leg set and joint structure; cattle that are easy fleshing and wide based, that move freely, track wide and fill in their step. We also select for good carcass traits, fertility, calf vigor, and calm dispositions. ALL BULLS ARE ULTRASOUNDED, PAP, TRICH AND FERTILITY TESTED.

We breed cattle with commercial cattlemen in mind; most of our bulls sell to commercial cattlemen who sell by the pound, or on the grid, and run on western ranges. This requires bulls that can perform, thrive, and thereafter produce daughters that will consistently do the same year in and year out. Our cattle winter on desert winter range without hay, calve unassisted, summer in the high mountains and wean big calves.

The majority of our customers are repeat customers and valued friends. We stand behind our product with a one-year breeding soundness guarantee and expect that you will get many years of service out of the bulls you purchase.

We have sold cattle into 32 states, Canada and Mexico. We guarantee we can get your bull within 300 miles for \$500 or less within the lower 48. BEAVER IS LOCATED 3 HOURS FROM SALT LAKE CITY OR LAS VEGAS ON I-15, BOOK YOUR FLIGHT TODAY! We look forward to seeing you at our sale on March 8, 2025, in beautiful Beaver UT.

SATURDAY, MARCH 8TH 2025
